**Summary:**  
Do you enjoy angling, being outdoors and teaching others? Are you excited about joining a team of dedicated staff focused on angling education and increasing the ranks of anglers? The main focus of this position is to support and encourage participation in outdoor fishing-related recreation.  
This position coordinates with Department staff, fishing skills education contractors and volunteer instructors to develop, organize and provide teachers, students and the general public with skills trainings, workshops, programs, and presentations on angling and aquatic resources education.  
This position monitors USFWS sport fishing federal grant agreements and identifies teacher's needs related to curriculum development.  
This position also conducts, designs and reviews angling and aquatic resource education programs for teachers and educators to use in K-12 schools and outdoor education settings.  
This position develops procedures to ensure that teachers, instructors, contractors and Department staff are implementing curricula, activities and lessons that successfully meet program goals with an emphasis on skills-based instruction.  
Great office environment, 10 miles from downtown Santa Fe off of Highway 599, great opportunity to travel around the state, Headquarters is on a 160 acre site with open juniper grasslands, wetlands/pond, next door to Marty Sanchez golf course, stunning views all around.  

Please contact me with any questions!
