Are you interested in animal behavior? The Lab of Dr. Michael Ferkin has immediate openings for students wishing to earn a master’s or doctorate in Biological Sciences in Animal Behavior at The University of Memphis. Preference will be given to students interested in earning a doctorate. Students will have an opportunity to conduct research on the behavior, ecology, physiology, or cognition of microtine rodents. Our research focus includes, but is not limited to, sperm competition, social and sexual behaviors, parent-offspring interactions, olfactory communication, cognitive processing, and neurobiology of sperm loading. Please go to https://umdrive.memphis.edu/mhferkin/public/index.htm for more details about research interests and access to publications of the Ferkin Lab.

Qualified admitted students will receive a Teaching Assistantship, which includes a generous 9-11 month, renewable stipend, and tuition waiver. The position(s) would be available for Spring 2016 or Fall 2016. Students interested in this position should please contact Dr. Michael Ferkin at mhferkin@memphis.edu. Information about the graduate program in Biological Sciences at The University of Memphis can be found at http://www.memphis.edu/biology/graduate/
