Columbian Park Zoo’s mission is to encourage the appreciation of the world’s wildlife, to enhance the preservation and conservation of biodiversity and to inspire educational discovery and exploration in a fun, family-oriented environment for all citizens of the Greater Lafayette Area.

- **Opportunities include:** Seasonal/Part-time, Full-time

---

Consumers Energy | www.consumersenergy.com

We’ve been working for Michigan families and businesses for more than a century. We got our start in Jackson in 1886 and remain headquartered there today. We’re the principal subsidiary of CMS Energy. Consumers Energy is uniquely positioned to offer careers that satisfy the ambitions of most people, whether they are a high school graduate looking for their first career, an MBA student looking to develop their career or an experienced professional wanting to make an impact on our company’s future success.

- **Opportunities include:** Seasonal/Part-time

---

Davey Resource Group | www.davey.com

Davey Resource Group, Inc. was established to nurture and protect natural resources, especially trees and urban forests in communities across North America. Our urban forestry group has expertise and training backed by a company rooted in tree care for more than a century. Our Environmental Consulting group has decades of experience providing reliable, turnkey ecological consulting services to clients across North America. We are the go-to ecological consulting firm for a range of individuals and organizations, including homeowners, municipalities, developers and energy companies who need expert ecological surveys, design and planning to ensure success of their projects.

- **Opportunities include:** Full-time
Davey Tree | www.davey.com

For several decades, The Davey Tree Expert Company has built and maintained a culture of employee-ownership. Several important milestones since March 15, 1979, when ownership of the company passed from the Davey family to the employees, show how employee-ownership has developed over the past four decades. With operations throughout North America, our branches have expanded, but our commitment to scientifically-based horticultural and environmental services and outstanding client service has never wavered. Davey Tree is Ohio’s largest employee-owned company and the ninth-largest in the nation.

- Opportunities include: Full-time

Dunes Learning Center | www.duneslearningcenter.org

Dunes Learning Center is an environmental education camp within the Indiana Dunes National Lakeshore. The 63-acre campus is surrounded by scenic hiking trails, historic sites, and one of the most biologically diverse national parks in the country. Established in 1998 with a mission to inspire lasting curiosity and stewardship with nature, Dunes Learning Center offers programs for schools and groups, as well as summer camps that give students the opportunity to explore and learn about nature.

- Opportunities include: Seasonal/Part-time, Full-time

Eco Logic | www.ecologicindiana.com

Our mission is to establish and restore native plant communities and the ecological processes they support through planning, implementation and monitoring. Eco Logic has developed long-term relationships with organizations that practice conservation as part of their mission, enabling us to have a deep understanding of our client’s goals and objectives. Collectively with our partners, we focus on projects that can be successful and provide meaningful benefits long into the future. Our consulting division builds on these experiences to guide the successful creation and management of resilient, ecologically functioning landscapes. Progressing from humble beginnings into one of the premier restoration firms in the Midwest, our team of 20 passionate and well-trained ecologists, ecological consultants, and nursery professionals are the foundation of Eco Logic’s success.

- Opportunities include: Seasonal/Part-time

ElectricCom | electricominc.com

ElectriCom Inc. was founded in 1960 in Paoli, Indiana by Phil Brown to provide construction services to power and communications clients. Since its inception, the company has experienced continuous growth while maintaining its focus on telecommunications and power. ElectriCom has expanded our locations to better meet the needs of the customer. We are proud to say that we have done business in 39 states across the country.

- Opportunities include: Full-time

Environmental Consultants Inc. (ECI) | www.eci-consulting.com

ECI provides vegetation management consulting, field services, and remote sensing/software consulting services to the utility industry. Our purpose is to provide research based solutions that improve safety and system reliability, ensure compliance, reduce costs and optimize return on investment.

- Opportunities include: Full-time

Environmental Solutions & Innovations, Inc. | www.environmentalsi.com

Environmental Solutions & Innovations, Inc. was formed on 8 March 2000 by Dr. Virgil Brack, Jr. to provide high quality environmental consulting services to a variety of industries. We have chosen to
focus exclusively on services for the natural environment. We did this to maintain the excellence that makes us quality leaders in this arena. We do not offer our services as a side-line or add-on to larger and more profitable service areas. We are often hired by repeat Clients to work in tandem with engineering companies because this division of labor often produces a better overall product for the Client. To this end, we work diligently to communicate seamlessly, with all project participants, regardless of our role.

- Opportunities include: Seasonal/Part-time

**Girl Scouts of Central Indiana | [www.girlscoutsindiana.org](http://www.girlscoutsindiana.org)**

We’re 2.5 million strong—more than 1.7 million girls and 750,000 adults who believe in the power of every G.I.R.L. (Go-getter, Innovator, Risk-taker, Leader)™ to change the world. We’re the preeminent leadership development organization for girls. And with programs from coast to coast and across the globe, Girl Scouts offers every girl a chance to practice a lifetime of leadership, adventure, and success. Girl Scouting builds girls of courage, confidence, and character, who make the world a better place.

- Opportunities include: Seasonal/Part-time

**Great Lakes Forest Products, Inc. | [www.glfp.net](http://www.glfp.net)**

Located in Elkhart, IN, Great Lakes Forest Products, Inc. specializes in remanufactured and bulk lumber as well as imported and domestic plywood. Some of their key markets include recreational vehicle, manufactured housing, cargo trailer, mobile office, park model, retail, and industrial. Great Lakes Forest Products, Inc. is built on a solid foundation of great people. “Along with supplying quality products, we pride ourselves on reliability, responsiveness, trust, and most importantly hard work. We love what we do! Let us show you.”

- Opportunities include: Seasonal/Part-time, Full-time

**Gregg Forest Services | [https://sites.google.com/view/greggforestservices/home](https://sites.google.com/view/greggforestservices/home)**

Gregg Forest Services, located in Scottsburg, Indiana, first began doing business in February of 2000, out of New Albany, Indiana. The main counties that I have worked in are Harrison, Scott, Perry, Clark, Floyd, Washington, Orange, Spencer, and Crawford in Indiana. We also manage woodlands for wildlife and threatened species. Gregg Forest Services is also strongly motivated to promote and manage for oak regeneration. Services include Timber Sales, Timber Appraisals, Timber Inventories, Timber Stand Improvement/Forest Improvement, Invasive Species Removal/Brush Management, Tree Planting, Tree Plantation Maintenance, Forest Management Plans, and Taxation Assistance.

- Opportunities include: Seasonal/Part-time, Full-time

**Habitat Solutions, LLC | [www.habitatsolutionsforestry.com](http://www.habitatsolutionsforestry.com)**

Habitat Solutions is a forestry consulting and management company located in Columbus, Indiana. We focus on helping private landowners maintain healthy forests. Our primary work includes timber sales administration, timber inventory and appraisals, timber stand improvement, invasive plant management, tree planting, native grass and wildflower planting and prescribed fire.

- Opportunities include: Seasonal/Part-time, Full-time

**Heartland Restoration Services, Inc. | [www.earthsourceinc.net](http://www.earthsourceinc.net)**

Heartland Restoration Services was founded in 1994, prompted by the need for a full service native landscape restoration company to provide cost effective native landscape and ecological restoration services and products. Heartland Restoration Services operates a local genotype seed and plant nursery providing custom seed mixes.
and plant material based upon thorough research and field experience from both Earth Source and Heartland Restoration Services. Our staff of knowledgeable professionals understands the principals of ecological restoration and applies these principles to implement plans for construction and management on a wide variety of project types.

- **Opportunities include**: Seasonal/Part-time, Full-time

---

**Hendricks County Parks & Rec** | [www.hendrickscountyparks.org](http://www.hendrickscountyparks.org)

Since 2000, Hendricks County Parks & Recreation has worked to meet our citizens’ needs for recreation and leisure opportunities, and supportive community services. Hendricks County Parks & Recreation manages and maintains four parks: McCloud Nature Park, Sodalis Nature Park, the western portion of the Vandalia Trail and W.S. Gibbs Memorial Park. Be sure to visit our parks as you explore the many parks Hendricks County has to offer!

- **Opportunities include**: Seasonal/Part-time

---

**Independent Stave Company** | [www.independentstavecompany.com](http://www.independentstavecompany.com)

Founded in 1912, Independent Stave Company (ISCO) crafts the highest quality white oak barrels with the same commitment to quality and service as its founder, T.W. Boswell established four generations ago. Under Fourth-generation Cooper and CEO Brad Boswell’s leadership, ISCO’s mission has been to continually advance and improve stave mill and cooperage technology. To reflect this commitment, ISCO became ISO certified in 2007. As established stave mill operators in the United States, ISCO selects only slower grown, fine grain timber for its barrels. The climate and soil of the Midwest and France result in slower growing trees with finer grain which is the most desirable for cooperage. Our commitment to crafting the best barrels continues as we work with distillers, winemakers and research specialists, including our own Research and Development Director, David Llodra. We have over 1,000 barrels involved in experiments worldwide and our in-house engineering team designs and builds the most innovative cooperage and stave machinery in the world.

- **Opportunities include**: Seasonal/Part-time

---

**Indiana Association of Soil and Water Conservation Districts** | [www.iaswcd.org](http://www.iaswcd.org)

Indiana’s 92 Soil and Water Conservation Districts (SWCDs) work at the grassroots level in both rural and urban settings to develop locally-driven solutions to natural resource concerns. The Indiana Association of Soil and Water Conservation Districts (IASWCD) works at a state level to promote and enhance conservation. We do this through legislative advocacy, public outreach, and supporting our member SWCDs in their local work. The IASWCD represents the interests of local Districts as one voice, and assists their leadership through coordination and education for the wise use and management of our natural resources.

- **Opportunities include**: Seasonal/Part-time, Full-time

---

**Indiana Department of Environmental Management (IDEM)** | [www.in.gov/idem](http://www.in.gov/idem)

The Indiana Department of Environmental Management’s (IDEM) mission is to implement federal and state regulations to protect human health and the environment while allowing the environmentally sound operations of industrial, agricultural, commercial, and governmental activities vital to a prosperous economy. IDEM issues air, water, and solid and hazardous waste permits that restrict discharges to environmentally safe levels. Staff members inspect and monitor regulated entities; provide compliance and technical assistance; monitor and assess air, land, and water quality; use enforcement actions as necessary to ensure compliance; and respond to incidents involving spills to soil or waters of the state.

- **Opportunities include**: Seasonal/Part-time
IDEM - Watershed Assessment and Planning Branch | www.in.gov/idem/cleanwater/2338.htm

The IDEM Watershed Assessment and Planning Branch conducts sampling in rivers, streams and lakes and analyzes those samples to assess the status of water quality across the state. This work is done according to the Indiana Surface Water Quality Monitoring Strategy, which guides and prioritizes the type of monitoring programs IDEM must do to meet Clean Water Act (and Safe Drinking Water Act) requirements. IDEM also participates annually, either directly or through U.S. EPA support, in the National Aquatic Resource Surveys where a portion of Indiana’s surface waters are sampled to include in a national overview of water quality.

- **Opportunities include**: Seasonal/Part-time

Illinois-Indiana Sea Grant | www.iiseagrant.org

Illinois-Indiana Sea Grant, funded through National Oceanic and Atmospheric Administration (NOAA), the University of Illinois and Purdue University, works in partnerships with key organizations, institutions, and agencies in the region to reach more audiences and multiply opportunities for success. IISG brings together scientists, educators, policy makers, community decision makers, outreach specialists, business leaders, and the general public to work towards a healthy environment and economy.

- **Opportunities include**: Seasonal/Part-time

IN Dept. of Natural Resources (DNR), Division of Entomology and Plant Pathology | www.in.gov/dnr/entomology

Mission: To manage plant and apiary pests for the preservation and protection of cultivated natural resources, to facilitate trade, and to enhance the quality and appreciation of the environment.

- **Opportunities include**: Seasonal/Part-time

IN Dept. of Natural Resources (DNR), Division of Fish and Wildlife | www.in.gov/dnr/fishwild

The mission of the Indiana DNR Division of Fish & Wildlife is to professionally manage Indiana's fish and wildlife for present and future generations, balancing ecological, recreational, and economic benefits.

- **Opportunities include**: Seasonal/Part-time, Full-time

IN Dept. of Natural Resources (DNR), Division of Forestry | www.in.gov/dnr/forestry

The Division of Forestry’s main duties include: The care, custody and control of the forest land owned by the state, excluding State Parks; Establish, operate and maintain nurseries for the production of trees to be used in reforestation; Investigate or experiment with regard to forestry questions; Purchase land and forests subject to the approval of the governor; Receive and accept, either by gift or devise, the fee or other estate in land or forests; Advise and cooperate in securing proper forest management of the state land; Examine private forest land with request by and paid for by the owner of the land with the purpose of advising the owner of the proper methods of forest management; Protect and conserve the timber, water resources, wildlife and topsoil in the forests owned and operated by the Division of Forestry for the equal enjoyment and guaranteed use of future generations; Using good husbandry to remove timber that has a substantial commercial value in a manner that benefits the growth of saplings and other trees; Establish and equip a firefighting organization for the purpose of detecting, preventing, fighting and controlling fires in state forest land.

- **Opportunities include**: Seasonal/Part-time, Full-time

IN Dept. of Natural Resources (DNR), Division of Law Enforcement | www.in.gov/dnr/lawenfor
The division has its headquarters in Indianapolis and operates 10 law enforcement districts throughout the state. In 1897, the legislature gave the Commissioner of Fisheries power to appoint at least one deputy in every county. In 1911, an act was passed establishing game wardens. The Law Enforcement Division is Indiana’s oldest state law enforcement agency, and one of the most diverse. In addition to the division’s duty of enforcing state laws, Indiana conservation officers are active in a variety of non-law enforcement activities, such as outdoor education including boater and snowmobile, hunter and trapper, Karl Kelley Youth Camp, and the Becoming an Outdoors Woman programs.

- **Opportunities include**: Full-time

---

**IN Dept. of Natural Resources (DNR), Prophetstown State Park | [www.in.gov/dnr/parklake/2971.htm](http://www.in.gov/dnr/parklake/2971.htm)**

Indiana’s newest state park, Prophetstown is located where the Tippecanoe River meets the Wabash near the town of Battle Ground northeast of Lafayette. The park’s landscape has been shaped by ice from glaciers, moving water, fire and human hands that helped maintain the vast tall prairie grass. Native American people hunted and lived along the two rivers for thousands of years. Through our unique partnership with The Farm at Prophetstown, visitors can discover 1920s farm lifestyles, Native American culture and take a stroll through 900 acres of restored prairie. We are restoring native habitats such as wetlands, wet slopes called fens, prairie and open woodlands.

- **Opportunities include**: Seasonal/Part-time

---

**IN Dept. of Natural Resources (DNR), Shades State Park | [www.in.gov/dnr/parklake/2970.htm](http://www.in.gov/dnr/parklake/2970.htm)**

Shades State Park is that peaceful place you’ve sought. Located about 17 miles southwest of Crawfordsville (off S.R. 47), it is a favorite for hikers and canoeists. The beautiful sandstone cliffs overlooking Sugar Creek and numerous shady ravines provide the backdrop for your journey through this nature lover’s paradise. Also on the property is Pine Hills Nature Preserve, which affords spectacular topography for those willing to take a fairly long hike.

- **Opportunities include**: Seasonal/Part-time

---

**IN Dept. of Natural Resources (DNR), Turkey Run State Park | [www.in.gov/dnr/parklake/2964.htm](http://www.in.gov/dnr/parklake/2964.htm)**

You’ll marvel at the natural geologic wonders of this beautiful park as you hike along its famous trails. Nestled along State Road 47 southwest of Crawfordsville, the park offers the chance to explore deep, sandstone ravines, walk along stands of aged forests, and enjoy the scenic views along Sugar Creek.

- **Opportunities include**: Seasonal/Part-time

---

**Indiana State Parks | [www.in.gov/dnr/parklake](http://www.in.gov/dnr/parklake)**

The mission of Indiana State Parks is to conserve, manage, and interpret our resources while creating memorable experiences for everyone. Our vision: Excellence in stewardship, recreational diversity, interpretation, service and growth resulting in unique places that people respectfully use, enjoy and cherish.

- **Opportunities include**: Seasonal/Part-time

---

**Indianapolis Zoo | [www.indianapoliszoo.com](http://www.indianapoliszoo.com)**

The Indianapolis Zoo empowers people and communities, both locally and globally, to advance conservation. The Indianapolis Zoo's Intern Program offers a truly unique opportunity to college/university students to become actively involved in the Zoo’s conservation, research, education and recreation efforts. Interns will be able to enhance their knowledge and experience necessary for today's job market in a variety of fields, including zoo & aquarium sciences, non-profit management, communications, marketing, conservation education and more! Internships can be the essential key to gaining employment in zoos and aquariums when coupled with a related bachelor's degree.

**Lafayette Renew** | [www.lafayette.in.gov/329/Lafayette-Renew](http://www.lafayette.in.gov/329/Lafayette-Renew)

Formerly known as the Water Pollution Control Department, Lafayette Renew is a division of the City of Lafayette. Lafayette Renew is more than just clean water. Our energy efficient facility recovers renewable resources while cleaning the water. Our buildings are heated by methane produced during the treatment process and we also produce fertilizer for Indiana’s land application program. A solar field is in the making, and our goal is to be a net-zero utility in the future! Lafayette Renew is a utility focused on resource recovery, sustainable practices, and protection of water quality and the environment. We are dedicated to positively impacting the environment and the quality of life for our community by efficiently managing resources, expanding educational outreach, and fostering local partnerships.

**Lochmueller Group** | [www.lochgroup.com](http://www.lochgroup.com)

Initially founded as an infrastructure planning firm in 1980, today Lochmueller Group (Lochgroup) serves clients nationwide from nine offices across the Midwest. With just over 200 employees, we provide clients a comprehensive range of services for all their transportation planning, civil engineering, and environmental needs. Shaped by the planning mentality of the firm’s founders, Lochmueller’s focus is meeting a client’s overall goals rather than simply completing individual assignments. Our ability to move transportation projects from the earliest planning stages through construction engineering allows us to better understand and appreciate how decisions made today can impact later stages of projects. Lochmueller professionals have access to a wide variety of in-house expertise readily available to provide insights on specific transportation planning, engineering, environmental, and constructability considerations; traffic; permitting; right-of-way; costs; and a host of other subjects.

**Midwest Landscape Industries, Inc. | www.mli-in.com**

Midwest Landscape Industries, Inc. was established with the vision to build a company with strong values and dedication to provide the highest quality of landscape construction and landscape management available. These values are driven by a desire to exceed expectations in everything we do, in a manner that is both ethical and efficient. MLI also wants to be a great place to work - providing good wages and opportunities for all employees. There are several factors that are drawing the vision and success of MLI. The MLI team has several years of accumulated experience that has contributed to building and maintaining landscapes within central Indiana. From mowing lawns, installing softscapes, designing outdoor living spaces - all the way to craning and hoisting materials up to a 7th floor green roof to allow enjoyment of all ages, WE have the experience to create your dream and deliver your expectations.

**Muncie Sanitary District Bureau of Water Quality | www.munciesanitary.org/departments/bureau-of-water-quality/**

The Bureau of Water Quality (BWQ) was created in 1972 and is one of the oldest local water pollution testing and enforcement agencies in the United States. The Bureau consists of four sections: Administration, Biology, Laboratory, and Surveillance. These four sections implement cooperative industrial pretreatment programs as well as chemical and microbial analyses of treatment facilities and stream water. They also assess aquatic communities, and in doing so, continue to surpass the minimum legal requirements of the National Pollution Discharge Elimination System (NPDES).

NICHES Land Trust | www.nicheslandtrust.org

It's alarming to see more and more land taken over by parking lots, big box stores, and housing developments. But it doesn't have to be this way. At NICHES Land Trust, we provide direct and tangible ways to improve the very community in which you live by protecting and preserving our most valuable asset – the natural world that's right around us. Cherished memories of time outdoors with our children, parents, and grandparents are indelible parts of our lives. When we walk in the woods, sit under a shady tree, smell wildflowers, cast a line in glassy waters, or paddle down the river with friends and loved ones, we connect with who we are and our place in the world. Protecting our natural areas ensures that we'll still have places to hike, bike, boat, fish, explore, daydream, witness wildlife or just enjoy the quiet and peace of nature.

Pine Creek Camp – Impact2818 | https://impact2818.org/our-team/pine-creek-camp/

Impact 2818 is a ministry of the Indiana Conference United Methodist Church [nonprofit 501(c)(3)]. Our programs and facilities serve and are welcoming to all people, regardless of church attendance or denominational affiliations. Pine Creek Camp, one of our many camp facilities, is 336 acres of beautiful woodland along the banks of Big Pine Creek. For over fifty years, the property has been a vital part of the camping ministry of the United Methodist Church in Indiana.

Purdue Department of Forestry and Natural Resources (FNR) | ag.purdue.edu/fnr

We are a vibrant and growing department, offering undergraduate degrees in four majors: Forestry, Aquatic Sciences, Wildlife, and Sustainable Biomaterials: Process and Product Design. The FNR graduate program offers Master of Science, Master of Science in Forestry, and Doctor of Philosophy in all of these focal areas. It is our mission to partner with federal, state, and private organizations to develop and disseminate knowledge in the natural resource sciences associated with the protection, management, and sustainable use of terrestrial and aquatic ecosystems; the fish, wildlife, water, and timber resources they produce; and the ecological, recreational, and esthetic benefits they provide.

The ELAM Group | www.elamusa.com

At The ELAM Group, we know that environmental concepts can be complicated by seemingly conflicting data. Logical conclusions can be swayed by antagonistic professional opinions. Control of your claim can be lost without a reliable consultant. As you peruse our website and read about our 3 Practice Areas – Environmental Contracting, Pollution Claim Oversight & Litigation Support – we hope you agree that The ELAM Group
is formed on a simple, elegant platform designed to resolve your environmental concerns, providing you with the solutions you need. At The ELAM Group, you gain depth through simplicity, insight through logic and confidence through hard work. As you get to know the people at The ELAM Group, you will come to find that we are more than just an environmental consulting firm, we’re your business partner. Every step of the way, The ELAM Group advises its clients through the often murky waters of environmental contamination – be it funding, site assessment, remediation or closure.

---

The mission of Wildlife Services (WS) is to provide Federal leadership in managing problems caused by wildlife. WS recognizes that wildlife is an important public resource greatly valued by the American people. By its very nature, however, wildlife is a highly dynamic and mobile resource that can damage agricultural and industrial resources, pose risks to human health and safety, and affect other natural resources. The WS program carries out the Federal responsibility for helping to solve problems that occur when human activity and wildlife are in conflict with one another.

The Hoosier National Forest, in the hills of south central Indiana, provides a wide mix of opportunities and resources for people to enjoy. Rolling hills, back-country trails, and rural crossroad communities make this small but beautiful Forest a local treasure. Forest managers work with the public to develop a shared vision of how this
203,000 acre Forest should be managed. We strive to provide outstanding stewardship by restoring, maintaining, and interpreting the cultural and natural resources of our public lands. We offer high quality, resilient and rare ecosystems that provide diverse outdoor recreational experiences.

- **Opportunities include:** Seasonal/Part-time, Full-time

---

At the Natural Resources Conservation Service, we have a proud history of supporting America’s farmers, ranchers, and forest landowners. For more than 80 years, we have helped people make investments in their operations and local communities to keep working lands working, boost rural economies, increase the competitiveness of American agriculture, and improve the quality of our air, water, soil, and habitat.

---

Muscatatuck National Wildlife Refuge was established in 1966 as a refuge to provide resting and feeding areas for waterfowl during their annual migrations. The refuge includes 7,724 acres near Seymour, and a 78-acre parcel, known as the Restle Unit, near Bloomington. The refuge mission is to restore, preserve, and manage a mix of forest, wetland, and grassland habitat for fish, wildlife, and people. More than 280 species of birds have been seen at Muscatatuck, and the refuge is recognized as a “Continently Important” bird area. The wetlands of Muscatatuck also provide homes for uncommon reptiles and amphibians including northern copperbelly water snakes, four-toed salamanders, and Kirtlands snakes. Other wildlife documented on the refuge include 24 species of mussels, 33 species of dragonflies, 60 species of butterflies, 43 species of mammals, and 92 species of fish.

**Wabash River Enhancement Corporation | [www.wabashriver.net](http://www.wabashriver.net)**

The Wabash River Enhancement Corporation (WREC) is a 501c3 nonprofit agency located in Tippecanoe County, Indiana. We lead community efforts to develop long range plans to improve the riverfront, the river corridor, and water quality; and then we engage the community in their implementation. Our mission is to enhance the quality of life in the Wabash River Corridor by creating sustainable opportunities to improve health, recreation, education, economic development, and environmental management. WREC has a robust education and outreach program which has sparked water quality improvement projects in the Greater Lafayette community, such as the installation of rain barrels, rain gardens, native plantings, stormwater management alternatives, and agricultural best management practices. WREC also hosts the annual Wabash Riverfest in July, which brings 1000s of people to the river for celebration, canoe racing, and education.
