## EXPERIENCE

MARCH 2004 - PRESENT

**MANAGER, WALNUT COUNCIL & IFWOA AND ENGAGEMENT SPECIALIST, HTIRC, PURDUE UNIVERSITY**

The goal of my programming is to provide woodland owners in Indiana (through Indiana Forestry & Woodland Owners) and the Midwest and beyond (through Walnut Council and HTIRC) with resources and information useful to their land ownership objectives and encouraging them to seek professional assistance. Primary outputs are related to developing communications products and meetings for landowners to share the latest information.

Responsible for management of two non-profit woodland owners associations. Duties include all correspondence, membership database, bookkeeping, minutes and other business of the board of directors, newsletter, social media, and website editor, event planning.

The goal of the HTIRC is to provide research to relevant stakeholders to create more successful plantation and woodland management outcomes. My role is to communicate information and research needs from stakeholders back to the HTIRC to improve the research relevance, and to extend the research to stakeholders so they can more effectively manage their woodlands.

## EDUCATION

MAY 1984
