2010 Indiana Tree Farm Landowners Clinic

Saturday, March 13, 2010
Abe Martin Lodge
Brown County State Park, Nashville, IN.

The 2010 Indiana Tree Farm Landowners Clinic is a program designed to provide landowners interested in managing their forests and wild lands an introduction to management practices, incentive programs, and resources for advice and assistance. The program is open to anyone interested in trees and wildlife. We also plan to provide a children’s program running concurrently with the clinic.

Since 1941 the American Tree Farm System has educated and recognized the commitment of private family forestland owners demonstrated in sustainable forest stewardship. Join us to learn more about it.
