

1925

PERKINS, CHARLES A. Mr. Perkins passed away November 1, 1984, after two years of being a very sick man. (Mrs. C.A.Perkins)

1930

RANDALL, LESLIE R. Retired from Chrysler Corp, Kokomo, IN (as Grounds Keeper) 1972. Some travel. Garden & maintain property. Volunteer work.

1931

MILLER, FORREST T. Arthritis and some serious vascular surgery have limited my movement and prevented me attending some of the more recent meetings, such as the Ag Alum & Staff Banquet. My greetings to remaining old friends, and newer friends who have been kind too. May 1985 be kind to you all. I follow many of you by newsletter, but wish there was more information on what you actually do rather than your travels. My long-time friend John Datena keeps me posted on IDNR affairs. Heard from Bill Fix and Bill Bramble at Christmas and would be happy to hear from others who remember me. (716 Ravenswood Drive; Greencastle, IN 46135)

MEDESY, WILLIAM A. I keep busy and feeling useful doing paid and volunteer work. I serve as an administrator and instructor in an educational and cultural program for senior citizens sponsored by a community college. I write a column on nostalgia of the 1920-40 period for a monthly newspaper for senior citizens. As a volunteer I help make tapes of books for the blind and I participate in a national research project using a new drug which hopefully will slow or stop the development of skin cancers. I would like to hear from classmates. (15601 E. Jefferson Ave.; Aurora, Colorado 80013)

1932

PATTERSON, WILLIAM G. Have retired for second time and am 78 years old. Had 32 years with U.S.F.S. and SCS; 20 years with Air Products and Chemicals, Inc. as Mgr. of Nitrogen Solution Terminal with a milliongallon capacity here in Bishopville serving N.C. and S.C. Had a contract with them as self-employed part-time. It was nice.

1938

WALTERS, CHARLES S. Have to give this top priority, since I am leaving tomorrow for Indiana Harbour Beach, Florida for a couple of months. Have you editors had any information from Mac Johnston (1937)? His last address I had was 509 Military Dr., Coeur d'Alene, Idaho 83414. I have given up consulting as an expert witness for litigation involving wood failures. Last week had chance to go back to Indonesia for short-term assignment, but turned it down. Sent the last half of my reference library to Institut Pertanian Bogor (Java). What I forget now I have to go the the U of Ill. to look up -- or do without! Will be looking forward to the LOG to see where the Class of 1938 is.

DARRELL, CHARLES E. Even at the age of 72 Ye Olde Forester gets around. Last winter, did Topo survey on toxic waste spill area in Wanatah, IN. Just 2 weeks ago did plat survey (in 10<sup>0</sup> weather) on underground oil spill in Bremen, IN. We dabble heavily in state & federal politics; the various "Save-Wildlife" movements, "Right-To-Life" movements; and Indian & Eskimo charities. Retain fond memories of "Random-Line-Scotty" Young, "Easy" Pickens, "Handsome-Boy" Walters, "New-Word-A-Day" Hildebrand and others of the Class of '38.

ADSIT, FRANCIS W. I retired from Bowaker Paper Company June 1, 1981, after 27 years of service with firm. My time was spent as assistant & superintendent of the wood yard, yard crew and building and grounds maintenance. Before that I was employed by Lincon Bog Paper Company in Savannah GA, for over seven years.

I'm still married to the same wife for 44 years. We have 3 children, 2 boys and a girl. Also seven grandchildren, 3 boys and four girls. I'm enjoying my retirement very much.

GUYER, W. HILLIS From 1939 until 1971 I was a Forester (except for 3-1/2 years in the Navy during WW II - left as LT) with U.S. Gypsum Company and Anderson Tully Co. My specialty was Southern Bottomland Hardwoods from southern Illinois to Baton Rouge, LA. From 1971 until present I have been a Practicing Registered Land Surveyor - Miss, Ark, La, Tenn.

1939

DERRA, PAUL A. I am still enjoying retirement.

NICHOLS, JOHN H. Now retired but operating a private land surveying business on a limited basis.

GINN, WILLIAM E. I have been retired from the Indiana Department of Natural Resources, Div. of Fish and Wildlife, for 5 1/2 years and can say that I have enjoyed every moment. The secret of retirement is in the reallocation of time. I can't say that my accomplishments around the home and community are any greater than during my working years; but, I get done what I desire and at my own speed. Golf is one of my main hobbies and it takes a real emergency to deter a planned round. As Treasurer of the Indiana Wildlife Federation, Inc. & I.W.F. Endowment, Inc., several hours a week are spent in book-keeping. Whatever time is left I spend around the house and yard. Some of you may be interested to know that I have had as many as 55 doves at one time feeding at my back yard feeding stations. About 25 more than last year. After Indiana's first hunting season, does this increase mean -----? More study needed.

WILLIAMSON, COL. JOSEPH M. (Jack) Continue to be active in volunteer work. Wife Rachel and I have finally gotten our act together and we serve together on the Board of Directors of the same agency. It seems that we have been no exception to the fact that husband and wife usually have their separate volunteer activities. Our major trip in 1984 was a most interesting visit to the Scandinavian Countries and western Russia in June and July. We visited family in the midwest, New England and Texas during the year. I returned to Purdue for our 45th graduation anniversary for Gala week in the spring. It is always a pleasure to see old classmates but regret that our Forestry lunch had a poor turnout. I live at the same address in Bradenton, Florida as in alumni directory and classmates are always welcome.

SINNINGER, JAMES C. Forty-two years as Head of Purdue Univ. Grounds Depart; planted 10,000 trees on Purdue campus. Retired 1982. The picture shows how a forester on retirement should spend his time. Picture taken Grand Mesa, Colo. 1984.

69337. I'm sure he would like to hear from his "old" classmates. I sent the photos I had of the '40 summer camp to Charlie Miller. He may still have them. I've enjoyed past issues of the LOG for the news of classmates, changes and additions to the curriculum, and of the faculty. Nearly 40 years have brought many changes and new faces to the forefront. Keep up the good work and best wishes to all.

#### 1948

ARNOTT, DONOVAN Owner & mgr. Arnott Timber Co., Inc., Jackson, Ala. Have 3 children and 7 grandchildren ages 1 to 9 yrs.

HOLLOWELL, ROBERT E., JR. I'm still President at Pierson-Hollowell Company; spending much time at our Indianapolis office and Lawrenceburg sawmill and Veneer mill. Almost all of my travels are business related, to meetings and on sales trips. We have four grandchildren with another on the way.

MADDEN, ELLISON "BULL" Retired from Fish & Wildlife Service in 1980 after 30 yrs. Spent time to "Save the Dirt" - i.e. Wetland Preservation - Potholes - marshes in No. Dakota - Minnesota. Swamps - Marshes & Streams in Southeastern US. Enjoy fishing in the bountiful SE - "Mudbugs" - Shrimp - Crabs - bogue fish - homebrew - good friends etc. Good health - Don't see many 46-47-48 P.U. Foresters or Wildlifers. P.U. brothers - Zeke in Oregon, Bill - Indiana Chub - Virginia -- Hi to all.

BLAIN, GEORGE I. Retired from the Virginia Division of Forestry after 34 years service mostly in north central Virginia.

#### 1949

STEVENS, IRWIN E. As you know, I have managed Stevens Forestry Service, Inc., in El Dorado, Arkansas for the past 35 years, and even though the sawtimber business is in the doldrums, we are still in business.

At the present time, we have six foresters, three technicians and one secretary making up the company.

We are looking forward to bigger and better things in 1985.

MICHAEL, JOHN E. Still working for Maryland Forest, Park, and Wildlife Service.

1950

DAVIS, ROBERT (Bob) F. Bob is Woodlands Manager for Packaging Corporation of America at Filer City, Michigan. Family consists of wife, Betsy, four children and four grandchildren. Since moving to the "Great Lakes State," Bob and Bets have become hooked on sailing. No trees on Lake Michigan - but no telephones, stereos or TVs either.

WILSON, EUGENE F. I have 20 acres of Indiana Hardwoods, including 100 beautiful Sugar maples. Every spring I make maple syrup. It tastes great. See all Class of "50" at the Fall Annual Forestry Banquet. It is our 35th year graduated.

VAN MATRE, GEORGE H. Retired from Van Matre Wood Products Corp. in June, just in time to attend the Olympics in Los Angeles. We are spending our time traveling, collecting antiques and playing golf.

HAYS, HANK (Henry) E. My career in the USFS blazed cometlike through the skies, eventually sputtering to its inevitable end. It wasn't any fun to be a federal anymore, so I opted out a year and half ago. Now here I am on the seashore in blustery coastal Alaska keeping busy doing various things and coping with my latecomer, a 16 year old son. Last summer I helped on a timber inventory amongst the glacier and bears further north. I am also adopted into the Killer Whale House at Klukwan, which is an old Indian settlement up north. My second wife is a Tlingit Indian you see, a former Park Service Superintendent. I lost touch with the 1950 class, mostly WW II vets, and headed west, not much caring for any other region. But I well recall the personalities in that class of older vets and my embarrassment at having to wear that silly ROTC outfit. Come visit, anyone.

ALEXANDER, ROBERT F. Bob, who had been living it up in Dallas as a divorced bachelor, for five years, was married on July 27 to Shirley Gray. Bob is still operating Alexander/Scot Advertising, specializing in industrial advertising. Several months back he got a surprise visit from Fred (Ugo) Johns ('50) who was in Dallas visiting his daughter. On a business trip to Indianapolis a year or so ago Bob was saddened to learn of the death of Lucky Jordan, a good friend and another 1950 Forestry graduate. Alexander's business phone is (214) 247-5221, and his home number is 233-5302.

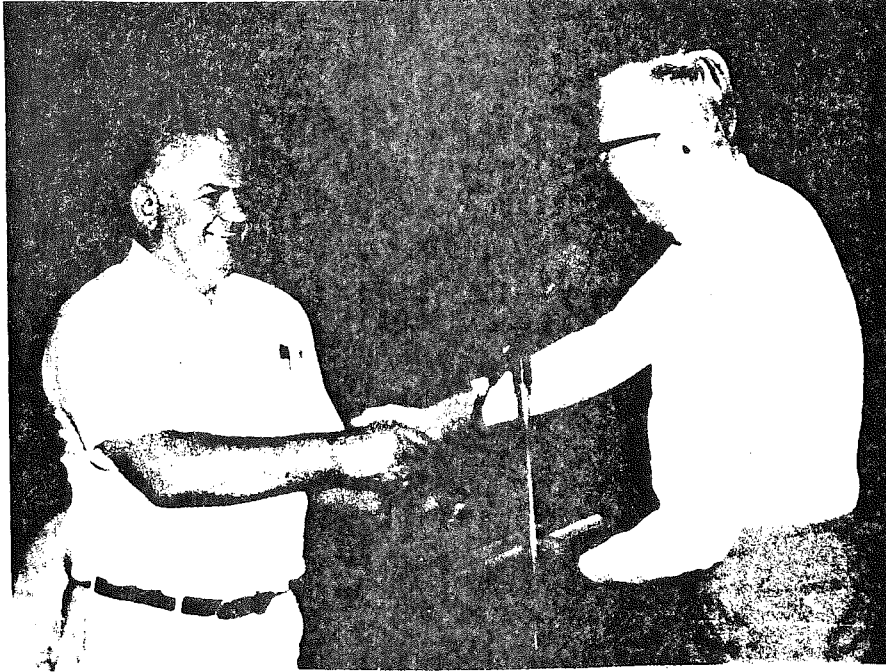

1951

BLICKENSTAFF, BRADLEY S. Still trying to run a Bank and looking forward to being outside on vacations.

CURTIN, THEODORE (Ted) W. Still serving as Extension Forester for the University of Illinois and growing a few Christmas trees on the side. Built a new house on the tree farm in 1984 and now thoroughly enjoy country living.

CRAIL, CHARLES J. Still employed as Public Affairs Officer for the Daniel Boone National Forest. Presently serving as Chairman, Communications Committee, Kentucky-Tennessee Society of American Foresters. Will also serve as chairman, East Kentucky Chapter, Society of American Foresters during 1985.

HASSLER, MITCHELL G. Retired from USDA-SCS with 34+ yrs. of service (Jan 3, 1984). presently assisting Indiana Forestry and Woodland Owners Association while working full time in Real Estate sales (Alta Graves Co., Inc.).

### 1952

PHILLIPS, (Richard) DICK E. Professional: Now in Department of Ecology & Behavioral Biology, U. of Minn. Teaching "Mechanisms of Animal Behavior", "Neuroethology" (grad course), "Animal Welfare", and "Field Ethology" (at Lake Itasca Forestry & Biological Field Station during 1st summer session). Research into avian vocal communication and physiology of behavior.

Personal: Oldest son, Miles, a freshman, U. Ill, Champaign on fencing scholarship; next, Derrick, a senior in HS (both aiming at engineering); youngest, Bruce, a freshman in HS. All 3 boys and their Mom (Elaine) and Dad enjoy our cabin near Brainerd where we hunt, trap (Derrick), x-country ski, canoe, and cut our annual 8-10 cords of firewood for heating our house in St. Paul. I'm still an avid bowhunter and birder; noted Russ Mumford's fine new book on Indiana birds.

OBER, MERLE, G. "Dirt Forester" in coal fields of W. VA from 1952-1954. Forest Product Sales, Marketing & Product Development to 1979. Home Construction & Sales to present time. Belong to Tex. Forestry Assoc. I also follow Boilermakers! Married 32 years - 2 daughters, 2 grandchildren.

#### 1955

ANGLETON, HUGH D. V.P. & Director, Laboratory Services NAHB Research Foundation, Rockville, Maryland.

#### 1958

ROBINSON, OWEN H. District Forester - KY - 20 years. Three children - wife, Jane. Lieutenant in Army Reserve, Church Deacon, enjoying life. Three years from retirement.

#### 1959

BROWDER, ROBERT B. My wife and I own 'Awake' Janitorial Service and 'Awake' Floor Buffing Service. We contract with the City of Lafayette, Private Shopping Malls and commercial office complexes. We have two daughters, 18 yrs old and 15 yrs. old. Our eldest daughter will be attending Oral Roberts Univ. in the fall of 1985. If anyone is passing our way please give us a call. Our phone number is 318/981-0181 (Lafayette, Louisiana).

#### 1960

CORCORAN, THOMAS JOSEPH, JR. As a guest of the forestry faculty of the Univ. of Nagoya, Japan, visited mountain logging operations in the Gero region during October 1984 - especially impressed by the magnificent stands of Japanese cedar and Japanese cypress.

## 1961

KARP, JOHN Married - 2 sons, 15 and 12. Ben, Adam, Marylan & I live in Monroe, CT. I am currently National Sales Manager - Manufactured Housing for Champion International. Responsibilities include coordinating all facets of business regarding homes built in factories, i.e., mobile, modular, pre-fab. Champion manufactures & supplies woodbased products sold for building industry such as paneling, siding, lumber, plywood, boards, particleboard, etc.

BLACKLIDGE, KENT H. I am currently plugging away at a 2nd M.S. degree in the Forestry & Natural Resources department which I hope to complete by late summer '85. Daughter, Dawn, graduated from Purdue school of CFS in Child Development in Dec 1984 and Doug, my oldest son, is a freshman at Purdue in the Forestry & Natural Resources Department.

## 1962

MITCHELL, DON R. It has been a long time since I have given information to the Purdue LOG. With this in mind, I will begin with a brief summary of the past, then my current status.

Upon graduating from Purdue, I began my career with the Forest Service in the Rocky Mountain Region where I served on a number of National Forests in various positions beginning on a Ranger District and eventually moving up to Forest Staff Officer on the Routt National Forest in Colorado. Later, I left the Forest Service to attend Graduate School at West Virginia University. After receiving a Master of Science in Forestry, I joined the U.S. Department of the Interior; first with the Bureau of Outdoor Recreation as a Special Projects Officer and then with the Bureau of Land Management (BLM). I have served BLM in some very interesting positions and locations such as BLM State Forester in Colorado, Senior Management Officer in Washington, DC for several years, Chief of Lands and Recreation, and now Chief of Lands and Minerals Operations both in the BLM Arizona State Office in Phoenix. I reside with my family in nearby Scottsdale.

BERNA, DAVID F. I'm still the Soil Conservation Service Forester for Ohio and taking care of our farm in Scott Co., IN. I'm also still growing Christmas trees. I already have six acres of Scotch and white pine and am planting 1500 each year. My 1st harvest should be 1986.

1963

BRUCE, CURTIS B. Curt is retiring from the Marine Corps this summer after 22 years. Curt and his family plan to stay in Southern California. Not too much forestry action out there as most of them have been paved over.

1964

HUNT, CHARLES RONALD "RON" No longer with International Paper Co. Now employed by American Cyanamid Co. as a Forestry Specialist. Researching new forest site prep & release chemical Arsenal. Territory - entire U.S. + Foreign.

1966

OWINGS, JAMES R. I am presently the manager of the Glenwood Springs Office of the Bureau of Land Management, U.S. Dept. of Interior. I spent the previous four years working on the Interior & Insular Affairs Staff of the House of Representatives, Washington, D.C.

1967

MacDOWELL, CHAD A. Married to Bonnie Berg MacDowell - we have seven children. Employed as Director of Marketing for Indiana Construction CO. of Fort Wayne. The owner (Mr. Bob Jesse) is a Purdue Grad!

1968

BINKLEY, STEVEN F. Just completed 11 yr's with Weyerhaeuser. Have worked in many areas and probably hold some kind of job-hopping record - 1974 - Technical Forester; 74 - Inventory Forester; 75 - Assistant Contract Supervisor; 76 - Road Construction Supervisor; 79 - Production Management Training Project Leader; 81 - Region Personnel Representative; 82 - Redesign Facilitator/Trainer. Also logging side foreman, truck shop supervisor, personnel supervisor. NOTE: Have enjoyed it all and am now working with the best group of folks ever. We make plywood, lumber and chips here at Mtn. Pine. Also, we do a good business in hardwood. Have two big boys in the service and a little one in the 3rd. grade.

## 1969

FREDERICK, DAVID M. We live in Schaumburg, Illinois a suburb of Chicago and have been able to get down to Purdue for some football games recently. Have three children - one girl in high school, one girl in Junior High and a boy in second grade. Wife Roberta is finishing her nursing degree this May. I was recently promoted to Vice-President, Pest Control Business at Valsicol Chemical Co. in Chicago and have world wide responsibility for a line of insecticides. Lots of travel, but I like it.

MEYER, MICHAEL K. I collect note samples for the U.S. Army Corps of Engineers in Louisville, KY. I grow Christmas trees as a part-time business. I travel a lot in Indiana and Ohio. Nothing new ever happens around here.

## 1970

BRUNER, HAROLD Harold and his wife, Debbie, live on a farm near Walton, Indiana with daughter Kim (11) and son Matt (8). After graduation Harold spent 2 1/2 years with Weyerhaeuser in Arkansas and Mississippi, and then 6 years as a District Forester with the IDNR. For the last 3 years he has been a forester and rural appraiser with Farmcraft Service, Inc., a small farm management and appraisal company.

KOONTZ, GREGORY A. I've been buying timber for Foley Hardwood's Inc. at Bargersville, IN for over seven years now. Foley's have expanded into the dry kiln area, 8' double cut band saw, and have continued the pallet mfr. as a side line. Jody is teaching grade school at Brooklyn. Adam played football again this year, received a trophy for "most versatile" player, he is in the 6th grade this year. Kristin enjoys being at the babysitters, her second family. She is three now and having fun.

TOOLE, PATRICK M. I have worked for K.E. McConnaughay, Inc. for 15 yrs. as field engineer I presently work for Jackson Eng. as Production Mgr. and operate a welding fabricating and repair business on the side. My wife, Vicky, and I have (3) boys; Sean (13), Todd (10), and Nicholas (6). Where is (POP) Jim Carter, Big Foot Sanders, J.D. Fox?

WALLER, STEVEN S. Ph.D. Texas A&M University 1975 - Range Science. Currently - Professor, Department of Agronomy, University of Nebraska-Lincoln. Married - Jessie Ellen (Simone). Children: Christina Dee and Scott Steven. Home Address: 4912 S. 63rd, Lincoln, NE 68516. Office: 347 Keim Hall, East Campus, University of Nebraska-Lincoln; Lincoln, NE 68583-0915.

BELL, RONALD L. After graduating in 1970, spent 2 years in US Army. Awarded 1 year Muehault Fellowship from the Ohio State University Graduate School and completed Masters Degree in 1974. Received a special contract from the Denver Wildlife Research Center during graduate school. One Publication of Thesis. Present position: Principal Refuge Manager, Agassiz National Wildlife Refuge. Married, 1 daughter.

CLYMER, GREGG N. Promoted to Major, US Air Force this past year. I am currently Chief, C-130 Simulator Branch and a C-130 Flight Examiner Pilot. I have just completed my Master's in International Relations from Webster University. Have two children - Andrea & Jereme, 10 & 7. Wife, Beth, working for an oil leasing consultant and trying to get her CPA. Come on out and see us in beautiful New Mexico.

#### 1971

HAMMER, DENNIS G. I am still working with the Marion County Sheriff Department and patrol the North side of the county. The closest I have come to working with Forestry lately is looking for the culprits who stole at least one \$10,000 Black Walnut from a city park in my area. If you're passing through Marion County and see a two tone brown machine with red lights blinking, wave, I may be looking for you too!

ZIMMERMAN, M. DEAN I will soon be completing my 14th year living and working in the Lafayette, Indiana area. My family has grown in recent years with children ages 4, 2 and 1. We live on 12 acres about 10 miles southwest of Lafayette.

I work as a District Wildlife Biologist in seven west-central Indiana counties. We are experiencing problems now with too many deer and coyotes, and not enough quail, pheasants and ducks. We have been reintroducing wild turkey to the area during the past 4 to 5 years and I've been involved in that. Two years ago I shot my first wild turkey in one of these new areas. Last year I wasn't as fortunate.

### 1972

GEDER, MARY F. After 8 years with the Federal Govt (77-80 as a Wildlife Biologist - Federal Aid Division of Denver Regional Office of U.S. Fish & Wildlife Service) I left in August 1980 for a job in private industry. For the past 4-1/2 years I've been a Petroleum Landman for Premier Resources, Ltd here in Denver - involves managing lands & leases in 8 western states and the Province of Alberta Canada. Very interesting work.

### 1973

BALDWIN, HERB Currently living near Lake Almanor about 30 miles east of Lassen National Park in the Mountains of Northeast California with wife, Barbara, and two daughters -aged 3 and 1. Employed by Roseburg Lumber Co. and responsible for all reforestation related activities on company lands in No. California.

STONEBRAKER, ROGER P. Present Occupation: Property Manager at LaSalle State Fish & Wildlife Area since 1977. Hobbies: Upland game hunting - woodcock, quail & grouse, and dove!!! Training bird dogs - English setters, waterfowl hunting & flyrod fishing for panfish. Also attempt to play golf. Wife: Cecilia (Leland) - Continuing Education at P.U. in Hammond majoring in Med Tech - will graduate in Spring 85. Son: Travis (age 12). Enjoys computers, fishing with the old man & camping.

JANSEN, MARK O. For the past three years I have worked as Assistant Park Manager at Lemon Lake County Park. The experience here has been laced with personal satisfaction and a fair share of challenges. Presently, I am looking outside our Lake County Park Department for a new challenge with greater responsibilities and incentives.

The family picture has widened to include my wife, Cheryl; Aaron, 5; Sarah, 4; and Ryan our newborn.

STANLEY, BARBARA A. I'm employed by the U.S. Forest Service, Tongass National Forest, Juneau Ranger District in Juneau, ALASKA!

### 1974

HISSETT, LYNN C. Current Occupation - Veterinarian, mixed animal practice in Beallsville, MD. Hobbies: Horseback riding, hiking.

KEPPLER, PAUL R. After graduating from Purdue, I went to work for the Indiana Division of Forestry, first as a C.E.T.A. Forester at Morgan-Monroe State Forest and then as a A.C.P. Forester, District 6. In July of 1976, I went to work at the David R. Webb, Co., Edinburg, Indiana. I stayed with Webb Veneer as a log buyer till October 1983. At present, I am employed by the Atlantic Veneer Corp, Beaufort, N.C. My wife, Sally, and I are presently living at 91 W. College Street; Fredericktown, Ohio 43019. We are the proud parents of two boys, Paul Nicholas (21 months) and Alex Patrick (2 months). I would like to hear from the guys in cabin seven, Lost Lake Forestry Camp of 1973 - Don Duncan, Rex Meyers, Mike Wiegman, Sid Clark, Jerry Heitsley, & Mark Butler.

HOCHSTETLER, JAMES E. Unfortunately, there were no forestry jobs that I could find in late 1977 when I got out of the Navy. So, I went back to school for a MBA from Calif. State Univ. Hayward and upon graduation again applied for employment with numerous forest product firms. Again nothing was open so in January, 1980 I moved to Fort Dodge, Iowa to work for Carnation Pet Foods as a supervisor making dog and cat food. My first love is still forestry and the timber industry but after 10 years my technological skills are rusty but my management skills are sharp. Presently I am married to Laurel Huggins Hochstetler (SCI 73) and we have a 3-1/2 yr old daughter Katrina Alexis. I presently work with our computer keeping track of volumes, down time manhours and manufacturing costs in the Management Information System Coordinators position.

WATTERS, REX F., II Reservoir Wildlife Specialist, Monroe Reservoir. Employed by State Dept. of Natural Resources, Division of Reservoir Management for 10 years. My wife, Dana, is a RN and currently works at Bloomington Hospital as head nurse on the Labor & Delivery Floor. I have three children, Rachel, 12; Rex III, 10; and Andrew, 7, all three attend Brown County Schools.

GLEITZ, ROGER W. Roger Wayne Gleitz, born 22 Dec. 1951, grad of Corydon Central H.S., grad Purdue Univ. May 1974 in Conservation option, B.S. in Agr. Attended P.U. in 1977-78 to receive certification to teach agriculture. Taught 1978 -1981 at Crawford County High School. Has worked since 1981 at Wyandotte Caves where he is now employed as a Naturalist. He has constructed a "Conservation-home" to live on his 50-acre spread. He uses and plans all land-use methods on his own site plus that at Wyandotte. Married to his college sweetheart, Kathy Goldman, 1973 ISU grad. They have two sons - Ryan and Neal, at home. Hobbies include coin and stamp collecting, researching and writing family histories, camping and backpacking and entering contests.

HAMILTON, LARRY A. I am employed at Procter & Gamble Paper Products Co. in Green Bay as a Production Dept. Manager. We enjoy living in the Green Bay area and even get up to do some camping and fishing around Lost Lake at times. The mosquitoes are looking awful skinny since they haven't had many good Hoosiers to work on for a while!

My wife and I had a little daughter this year - our first child.

I still keep in touch with George Garrett and Dave Huff - two other Purdue foresters. I've continued George's fishing lessons and he's finally catching on.

## 1976

MARTIN, MICHAEL J. Things have been busy Florida way. As I write this we are in the middle of our tree planting season with many Arbor Day Programs planned. In the deep south, January is the best time to plant trees.

Alice and I recently closed on a five-acre tract and hope to build a log home before the end of 1985!

Recently forest fires have pressed state forestry personnel throughout the central and south Florida.

## 1977

LAMOREAUX, ROBERT J. I assumed the position of Group Leader, Herbicide Bioevaluation, for Zoecon Corporation in Palo Alto, California in March, 1984. Zoecon is a subsidiary of Sandoz, LTD of Basel, Switzerland. I accepted their new position following a one year stay in Switzerland.

HODSKINS, ROGER A. After graduating from Purdue in 1977, Roger went onto receive his Master's Degree in Business Administration from the University of Rochester Graduate School of Management, Rochester, New York. From 1979 until November, 1983 he worked as a Marketing Representative with IBM's National Accounts Division in Cincinnati, Ohio. He left IBM to take a position as Eastern Regional Sales Manager with Softrend, Inc., a micro-computer software manufacturer located in Salem, New Hampshire. In November, 1984, Roger joined Wang Laboratories, Inc. as a Senior Marketing Specialist in International Marketing. He also works as a consultant on the implementation of micro-computers in corporations. Divorced, he lives with his dog, April, in Andover, Massachusetts. He enjoys hiking and skiing in the New Hampshire Mountains, exploring the New England seacoast, and following the Purdue boilermakers in football and basketball.

YANT, RICHARD D. I am an attorney practicing in downtown Chicago - primarily in real estate and general commercial practice. Married to Gwen Sommers Yant (B.A. History 1978) who is Preservation Coordinator for the City of Evanston, IL.

## 1978

ASHBURN, MICHAEL J. Greetings everyone! Best Wishes & God's Blessing to you this year. Eva & I are still directing the Young Life Ministry here in Evansville. All is going really well. The big news for us this past year was on May 20, 1984, we became proud parents of Melissa Kate Ashburn. That's right folks...I'm a daddy! Please drop in if you're ever down this way... I think of you folks often and grin a bit as I pass by good ole Branchville, IN and the Bandon Bar on my way to deer hunt. Have a great year! "ASH"

DURHAM, GLENN T. Living in rural Brownstown Township, Jackson County, Indiana. Working the south central area of Indiana for the Division of Forestry in utilization and marketing. I have a lovely wife with a 2-yr-old daughter, Jaclyn. Another one expected the summer of 85. Hobbies include grouse hunting and fishing.

WATSON (KRAMER), JULIA M. I have a 9-month old baby girl (born on April 27, 1984, weighing 8lb. 10 oz.), named Shannon Marie Watson.

### 1979

CLARK, KEVIN D. I am presently living in Lafayette, and employed by the David R. Webb Co. as a Timber Procurement Specialist. I purchase logs & standing timber in Northern Indiana, Illinois, Iowa, Missouri and Wisconsin.

KNIGHT, LINDA G. Linda passed away unexpectedly on November 15, 1984. She had not been sick, so it was quite a shock. (James Knight - her father)

PATTISON, STEVE L. Working as an Environmental Scientist for the Baltimore Gas and Electric Company in Baltimore, MD.

ROARK, ROBERT MARK Married Barbara Baird (Hu 79) 4/15/80. Children: Michael Robert 4/28/82 and Matthew Baird 8/4/84. Deacon in Ladoga Christian Church. JOB: Timber Procurement Mgr. for Pingleton Lumber Co., Inc., Greencastle, IN. Member of RVL Group of Companies of London, England. Responsible for all timber purchases with an annual production of 5 million board feet per year. Manage & supervise logging crews. Supervise all saw log and veneer log sales.

HUSTON, FREDERICK L., JR. Pursuing Masters of Forest Resources degree in Forest Fire Management at the University of Washington in Seattle. Will complete graduate work in summer of 1985. Hobbies include camping and hiking, photographing - abundant treasures of the great PNW.

### 1980

FIELD, MICHAEL F. Currently working for York Chemical Co. as a sales representative in the Midwest region. They are distributors of insecticides, rodenticides, & herbicides to the pest control industry.

RAYMER, DAVE General Manager for Newton's Little Acres, Apartment Management Co. Two children - David Matthew, 9; Rebekah, 6. We do renovation of large victorian & historical homes with emphasis on luxury apartments.

LACY, STEPHEN L. I am employed by the Army Corps of Engineers as a Field Geologist. My home base is located in Fort Worth, Texas. My work covers Louisiana, Texas, and New Mexico.

SCHROERING, JIM D. Title: Area Forester; effective 7/23/84. Company: Union Camp Corp., Chapman Forest (250,000 acres). Responsible for harvesting, road building, site prep, planting & cruising on 70,000 acres of pine-hardwood forest in the lower coastal plain of south Alabama. Hobbies: coping with the heat & large snakes.

### 1981

GRAY, LARRY G. Larry is Assistant Manager of the Harmony State Park at New Harmony, Indiana with the Indiana Dept. of Natural Resources. He is married to the former Barbara Green of Batesville. She also graduated from Purdue in '81. They have two little future Boilermakers - George Charles who is 2 yrs old and Kathlyne J. who is nine months old.

### 1982

CLARK, JAMES E., JR. Currently employed as Regional Sales Representative (Southern Midwest) at Swords Veneer & Lumber Co. of Rock Island, IL.

HARRIS, KENNETH K. To my friends of the Class of 82: I'm not for sure what's happened to you all, but this is what happened to me. I left for a summer job in New Hampshire only to come back home again. I worked in a retail nursery for 9 months and was laid off only to find I did not qualify for unemployment insurance. I moved on to another job working on T.V. commercials, but in the end it did not pay enough. None of the jobs did. During this time I applied to the Army's OCS School and was turned down. Faced with a low paying job and a seasonal lay off in a region of high unemployment and low prospects in any field, I enlisted in the US Army, was promoted automatically to Private First Class (E-3). From there I was promoted to Specialist-4 (E-4).

Presently I work in Darnell Army Community Hospital as a paraprofessional having been trained in the Army's Combat Field Medic School in San Antonio, TX. (My basic training was at Fort Jackson, SC on "Tank Hill" the Army's oldest continuing training center).

Presently I am waiting for VA decision from DA on my reapplication to the Army's Officer Candidate School. I have also received permission from DA to apply to the Armed Forces Medical College which is an accredited school that trains military doctors.

I am married to Bonnie Dorothy Harris from L.A., California. I have a spunky 10-month-old son who was born March 22, 1984 in Brooke Army Medical Center in San Antonio, Texas. Presently we are at Ft. Hood, Texas - the largest concentration of military power in the free world.

ZIMMERMANN, ANNE J. Working on my pilot's license. Still on the Lee District of the George Washington National Forest, employed as Forester/Biologist

1983

HEFNER-KAYLOR, CHRISTY Hi everyone! To make a long story short - I'm working as a seasonal park ranger for the Indiana Dunes National Lakeshore. Last summer I was a seasonal naturalist at the Indiana Dunes State Park. (I like the Dunes). My hobby has become finding time to read the nature books I've collected in my library. I got married September 29th and live at 1181 Abbey Lane 2D; Chesterton, IN 46304. I've got Dr. Mumford's new book and tell him I look forward to him autographing it. I'm sorry I don't have a black & white photo of me in my uniform. Take care and good luck.

DICK, BRIAN L. Greetings Purdue Foresters! This winter finds me still in the Colorado Rockies living another season as a ski bum. Steve Stachowiak and I are back at Keystone Ski Resort shuffling hamburgers and skiing as much as possible, everyday sometimes! Spent the last 8 months as an intern at the Keystone Science School. There I taught environmental education to people from 7 to 83 years old. I really enjoyed teaching and found it challenging and rewarding. Got to hike in the mountains about every day and backpacked almost a whole month in the summer. Needless to say I've seen and fished a lot of gorgeous country. Won't know what next summer has on store yet, but will stay out west. Stop in & say hello if you're out this way. Hope everyone is doing well. All my love to the class of 83 and "Leaky Waters."

MILLER, BRIAN K. I got married in October 1982. I graduate in May 1983. In June 1983, I began work as a Wildlife Biologist for the Connecticut Department of Environmental Protection, Wildlife Bureau working on wild turkeys.

LEONARD, PETER K. Not much to say folks! I'm working for (get this) a data processing company in Valparaiso, IN. Not much in line with forestry, but it pays the bills and allows me to save some. I am keeping my ears open for other opportunities, something closer to forestry and natural resources. I do hope I'll be reporting just such a change come the next issue. Till then, love to all and hopes for the best things in life!!

SWIONTEK, SCOTT R. Greetings from the South! After a very exciting and fulfilling year in Wisconsin I moved on to bigger and better things. I am now working for the Houston Independent School District as a teacher at one of two outdoor education centers. At the center I am responsible for supervision of twelve or thirteen fifth graders during their four day stay at the center. We teach a variety of subjects in an outdoor setting. I've seen a great variety of wildlife here including lots of snakes, bald eagles, ospreys and a thirteen foot alligator. For the folks from the class of 83 that haven't heard the good news, Ann and I are planning an August wedding this summer in Indiana and settling temporarily in Texas. If you ever get down to the Houston area look us up. Keep looking up and let's keep in touch. Keep up the good work Purdue Foresters and keep those LOG's comin'!

SPRINGER, BRUCE E. Working as a forester for Sizemore and Sizemore, Incorporated. Recently married. Hobby: woodworking.

1984

CLAY, KIMBERLY Y. Dear Fellow Foresters: It was so nice to hear from you. I recently moved to London, Kentucky to work for the U.S. Forest Service on the Daniel Boone National Forest. I'm a forest technician and most of my work pertains to timber management. I hope to transfer to a trainee forester position in the near future. Life in a small Kentucky town is very different from life at Purdue and a new, but never-the-less, interesting experience for me. I wish all of you the best in whatever option of Forestry that you've chosen. Take care.

WEZET, MICHAEL A. I am presently working in Southern Illinois in the Shawnee National Forest. My company is starting a new log yard, and I am the purchaser.

BERGAN, JIM F. Greetings Wildlifers and Foresters.

I am presently enrolled at Texas Tech University pursuing a master's degree in Wildlife Ecology. I spent last fall on campus taking classes which kept me so busy I couldn't visit all of the local honkey-tonks. I knew TTU was a good school when I heard C+W music being played on the student union's stereo system!!! After a two week Christmas vacation back in beautiful Hoosierland I was on the four lane heading to the crown jewel of the Southeast -- South Carolina. My study area is Par Pond, a 2800 acre reservoir located on the Savannah River Plant near Aiken, S.C. I work out of the Savannah River Ecology Lab.

My project deals with the wintering ecology of four diving duck species with an emphasis on habitat segregation and the role of aggression. I'm out on the lake between 4 and 8 hours a day, but I sure don't mind it a bit!! Thanks to Chris Kokojan's "boating lessons," I haven't tipped over a canoe yet! If anybody is in the neighborhood of Aiken, S.C. or Lubbock, Texas, look me up. You'll have a 50% chance of finding me during the next year and a half.

JAMIESON, SCOTT A. I am currently working towards a master degree in Urban Forestry under the direction of Dr. J. James Kielbaso at Michigan State University. I hope to be completed by June of 1985. The campus at "State" is beautiful.
