- **Gregory Shaner**, *Botany and Plant Pathology*
- **Kevin Leigh Smith**, *Agricultural Communication*
- **Gary C. Steinhardt**, *Agronomy*

Celebrate the success of the ***Purdue University Crop Diagnostic Training and Research Center***, winner of the 2008 Purdue Agriculture TEAM Award.

The Purdue University Crop Diagnostic Training and Research Center is known across the Midwest for its unique “hands on” approach to teaching the art and science of accurately diagnosing agricultural crop problems. The Center’s primary mission is to address important agricultural topics in a real-world setting and provide agriculturalists with opportunities to explore new and innovative crop production systems, sharpen their crop diagnostic troubleshooting skills, and evaluate new and alternative management strategies.

“Many hands, many minds, one goal”

Purdue Agriculture
