Announcements

- Students who do undergraduate research can submit a proposal to JPUR, an academic journal sponsored by the Office of the Provost.
  - Refer to www.jpur.org to find out how to submit proposals, discover tips for authors, and upload abstracts for consideration.
  - Deadlines are November 15th and January 15th for the 2014 edition.

- “Like” our Facebook page at: https://www.facebook.com/NRESPurdue

- Be on the look out for emails about scheduling for classes for the Spring 2014 semester! Check out registration dates on page 2.

INTERNSHIP OPPORTUNITY:

- Summer intern experience in Washington DC: Information session is October 17, 2013 at 5:30 pm at AGAD 121 Student Commons. Learn how to be part of the College of Agriculture Public Policy Internship Program. Undergraduate students from Agriculture are welcome.
Important Dates

October 17:
- Journal of Undergraduate Research (JPUR) Call out for Authors
  - learn about submitting your work at the abstract writing workshop. Email jpur@purdue.edu with questions.

October 15:
- Time management workshop offered by Student Success at Purdue’s Academic Success Center. Plan your time on a Daily, Weekly and Semester basis. STEW 318, 4:30-5:30

EAPS 116: EARTHQUAKES AND VOLCANOES

Department of Earth, Atmospheric and Planetary Sciences

- Instructor: Dr. R.L. Nowack - Credits: 3
- Phone: 494-5978 - Prerequisite: None
- Email: nowack@purdue.edu - Time: T/TH 9:00AM—10:15AM
- Place: HAMP 1144

ANTH 392: ANTHROPOLOGY OF TOURISM AND GLOBAL CULTURE

Department of Anthropology

- Time: MWF 12:30—1:20
- Study the influence tourism is having on tourists and the local host communities.
- Exploring topics such as:
  - the effects that placing a culture practice “on display” have on its cultural meaning for tourists and locals.
  - the ways minority groups and nations negotiate their identity through tourism
  - the environmental and health impacts that result from an influx in tourists
- For questions about the course, contact Dr. Audrey Ricke, aricke@purdue.edu

BCHM 100: INTRODUCTION TO BIOCHEMISTRY

Fulfills Science, Technology and Society core curriculum requirement

- Instructor: Dr. Vikke Weake - Using a topical question-based approach, we will explore the scale, structure and function of small molecules and proteins and learn and visualize biochemical molecules and processes. We will also discuss the answers to these questions in context of technologies and issues relevant to society.
- Times: T/TH 9:30am—10:20am
- Place: BCHM 105
- Number of credit hours: 2
Agriculture, Environmental & Community Sustainability in Costa Rica

- Spring Break 2014: March 15-23, 2014
- Study Tour Leaders:
  - Dr. Marcos Fernandez
  - Dr. John Graveel
- About: This nine-day international educational program will focus on agriculture, community and environmental sustainability in the humid tropical setting of Costa Rica. The program is intended to be an introduction to international travel and study abroad for those students who have not traveled abroad and who may be less likely to participate in traditional, longer-term study abroad programs. It will be facilitated and co-led by our colleagues at EARTH University in Costa Rica.
- Projected Total Cost: $2,800
  - Includes: airfare, ground transportation, lodging, most daily meals (breakfast, lunch and dinner) tour, educational materials, and events admission
  - No additional tuition will be charged as this is part of their spring semester
  - May qualify for new university and college (freshman) study abroad grants.
- Target Audience: 15-20 Purdue agriculture students, with preference given to freshman and sophomores.
