

Subject: Accelerating a Generation Syngenta Scholarship – Deadline: January 15

I am passing along information about a scholarship opportunity that you may be interested in pursuing. The **Accelerating a Generation (AG) Syngenta Scholarship** program is now open to eligible university students pursuing bachelor's or master's degrees in crop-related disciplines. Please review university list posted on website closely.

You may apply by completing a two-step process. First, you must complete an initial application form, found on the [scholarship website](#). Within a week of completing the form, you will receive a link via email inviting you to submit a 2–5-minute video essay. **Initial application forms must be completed by January 7, 2019. Video submissions will be accepted through January 15.**

Those who apply will compete for a portion of **\$20,000 in available awards**.

If this sounds like a scholarship you're interested in applying for, I encourage you to visit the [Accelerating a Generation Scholarship website](#), where you can find more information and start the application process.

If you have any questions about the scholarship, please feel free to contact Glenn Bertram at G&S Business Communications. Glenn may be reached at SAS@gsccommunications.com or (919) 870-5718.

Good luck!
