

Company

Aimpoint Research® is a global, multi-disciplinary strategic intelligence firm specializing in agri-food. We blend military intelligence techniques and market research to discover what's really happening in the marketplace, what's going to happen in the future and what to do about it to ensure our clients are successful no matter what the future brings.

Position: Agri-Food WatchDesk Analyst Intern

The Agri-Food WatchDesk Analyst Intern works collaboratively within the WatchDesk team to monitor the agri-food value chain. Specifically, analysts are responsible for collecting, synthesizing, and reporting intelligence to provide our clients with critical context and meaningful insights they can act on. Intelligence includes primary and secondary quantitative and qualitative information and data. As part of the WatchDesk team, interns are also involved in the development and execution of wargames.

This position will monitor and analyze dynamics of specified areas of the agri-food value chain.

The ideal candidate is naturally curious, hardworking, detailed oriented and has experience with analysis to answer questions.

Essential Duties and Responsibilities:

- Collaboration – Engage daily with teammates to report and synthesis intelligence and develop deliverables.
- Cognitive skills – Consume information and formulate a theory or hypothesis to test.
- Intelligence Interpretation– Investigate and synthesize large amounts of qualitative and quantitative information and data to test hypothesis and develop compelling, concise deliverables.
- Intelligence Reporting & Delivery – Proficient at clear and concise writing, developing presentations and delivering presentations to broad client audiences including executives. Communication – Interact with clients to understand and document their business and intelligence objectives and provide regular updates to them on new intel developments.

Requirements:

- Currently pursuing a Bachelor of Science degree or Advanced Degree in economics, business, finance, agri-business, or another agri-food related field.
- Outstanding interpersonal and client management skills.
- Naturally curious and inquisitive.
- Strong analytic skills and the ability to organize and contextualize information.
- Ability to integrate observations on news, current events, or trends in the United States and around the world with primary and secondary intel findings to enhance Aimpoint's value to our clients.
- Exceptional verbal and written communication skills with extensive experience writing reports, developing presentations, and briefing senior leaders.
- Ability to synthesize information into compelling, actionable findings.
- Desire to network, develop new business opportunities and expand client relationships.
- Desire to develop personally and professionally by constantly seeking new insights, skills, educational opportunities, and training.
- Must have meticulous attention to detail and the ability to work independently to generate high-quality, stand-alone work.
- Strong mathematical and computer skills to include proficiency with Microsoft Office.

Compensation & Location:

- Internship will be 8-12 weeks
- Compensation is based on 40 hours per week over the period
- This position is based at our office in Columbus, OH
