BCA Environmental Consultants, LLC, an Indiana environmental consulting firm, is seeking an entry level Environmental Field Scientist/Geologist to join our team in the Indianapolis office. **This position is an internship to be filled immediately and lasting through June 2016, with the potential of a permanent position following the completion of the internship.** Primary responsibilities will include performing field work for various environmental projects including Phase I and Phase II Environmental Site Assessments, other environmental investigations, and soil & groundwater remediation activities.

The ideal candidate will be self-motivated, have technical writing and interpersonal communication skills, and be highly client service focused. Assignment will include field investigations, oversight, logging & sampling of soil borings and monitoring wells, vapor intrusion investigation and sampling, remediation systems operations and maintenance support, oversight of excavation activities, report preparation, AutoCAD, perform regulatory and technical research, communicate with subcontractors and clients, etc.

**JOB REQUIREMENTS**

- A Bachelor’s degree or higher in environmental science/geology or related discipline
- 0-3 years of experience as environmental scientist/geologist
- Must be detail-oriented, and a team player with good communication, analytical, organizational, and time management skills.
- Previous experience (e.g. internships) in environmental consulting & investigation/remediation will be highly considered
- OSHA 40-hour Hazwoper Certification is a plus
- Ability to work within a project team in a fast paced environment

**ADDITIONAL REQUIREMENTS**

This position requires the use of a personal or company vehicle on company business. Candidates must be physically capable of safely operating a motor vehicle, possess a valid driver's license, and have an acceptable driving record.

Please send cover letter and resume to Joel Markland, Director of Project Development at jmarkland@bcacconsultants.com.
