Bayer is seeking highly motivated individuals to work as members of the NAFTO Breeding Organization as **Temporary Field Testing Agronomy Assistant**. This position will assist FTA’s with all operations that support Breeding Pipeline material during the of growing season. These individuals will be critical to our ability to deliver timely data to our pipeline and will have the opportunity to work with cutting edge proprietary field research equipment.

**Responsibilities:**
- Support FTA’s and their local hubs research sites throughout the FTA’s Region
- Assist in the planting, spraying, maintaining, evaluating, and harvesting of small plot agronomy, chemistry, and trait development research trials
- Manage different field testing operations such as plot maintenance, agronomic notes, planting, and harvest.
- Assist in computer related activities, such as accurately enter and manage research data and provide support for day-to-day testing activities
- Perform safety inspections, and assist in providing safety training and guidance to field personnel
- Work closely with FTA’s to successfully maintain Quality Management Standards
- Maintain storage or shop facility of local FTA (if applicable)
- Assist in other projects and perform other duties as requested
- Traveling and stays overnight will sometimes be required

**Required Skills/Experience:**
- Must have a valid driver’s license as this position will utilize company vehicles to travel
- Must have a willingness to learn new skills and perform a wide variety of tasks
- High School diploma or equivalent
- Experience in operating, maintaining, and/or repairing farm equipment
- Ability to work effectively with interdisciplinary teams
- Highly motivated with the ability to work independently
- Ability to take ownership of projects and produce quality results
- Ability to take constructive feedback and coaching
- Effective communication skills
- Willingness to accept responsibility
- Willingness to travel and work irregular and overtime hours as needed
- Must be at least 18 years of age

**Preferred skills:**
- Associate degree or related experience
- Agriculture Degree or Diploma student or graduate
- Knowledge in agronomy or related agriculture field
- Good understanding of agronomic practices

To apply for these temporary opportunities, please send your resume directly to **Tom Manney, Field Testing Agronomist**, at thomas.manney@bayer.com.
