Animals, Science and Environment
With an internship with Animals, Science and Environment, you'll be responsible for the care and welfare of the animals across Walt Disney World® Resort properties, including those living at Disney's Animal Kingdom® Theme Park, Disney's Animal Kingdom Lodge, Tri-Circle D Ranch and The Seas with Nemo & Friends® Pavilion at Epcot®. You'll also interact with guests and cast members and advocate the wise use of resources across the Walt Disney World Resort property.

Agricultural Sciences
If you are a land lover, bring your knowledge of horticulture to Disney Professional Internships. You'll gain invaluable experience in a variety of areas, including Aquaculture, Biotechnology, Entomology, and Plant Science, and be a part of the unique growing areas that make up Living with the Land, an agricultural attraction at Walt Disney World Resort. You'll work alongside Horticulture experts and cultivate your talents. It's a once-in-a-lifetime chance to work hands-on with a wide variety of plant, insect, and fish species and help bring the excitement of agriculture to millions of Epcot guests each year.

Disney's Animal Kingdom Theme Park and The Seas with Nemo & Friends Pavilion at Epcot are accredited by the Association of Zoos and Aquariums® (AZA).

Horticulture
Disney's Horticulture is dedicated to creating and preserving the "magical" guest experience through horticulture. Through these actions, Disney's Horticulture is an exemplary steward of the environment and a source of beauty, refreshment, and inspiration for all who work and play here. Disney's Horticulture Professional Intern Program is designed to provide qualified students with the opportunity to further their knowledge through practical hands-on work experience. Students will be assigned to various regions of the landscape operation. In addition to the work experience students must participate in the program activities, which include weekly seminars, projects and plant/pest identification.

Suggested Majors:

Below is a list of internships typically offered. Click on the links below to learn more:
