

Job Description

Dougherty Fertilizer is a family owned farm and crop protection business located south of Indianapolis near Franklin. We raise corn and soybeans, custom apply fertilizer and pesticides, and sell fertilizer and pesticides to farmers. Our only full time employees are the three owners but we're looking to hire an additional full time employee or a summer intern. Everyone that works here is expected to help wherever required. There is typically a lot of variety in day-to-day activities. We primarily use late model equipment along with precision GPS equipment.

Responsibilities are seasonal and include some of the following:

- Equipment maintenance (greasing, oil changes, minor repairs)
- Equipment operation (planting soybeans, spreading fertilizer, spraying)
- Truck driving (tendering fertilizer to the field, taking grain to the elevator)
- Facility maintenance (mowing grass, cleaning and repair of buildings)

We are looking for someone with a background in agriculture and good problem solving skills.

Applicants must have a valid driver's license and an insurable driving record, as determined by our farm insurance policy. This job can be physically demanding at times.

This job can have long hours during the busiest seasons, spring and fall, but we can be flexible with hours in the off seasons. A full time position starts with an annual salary of \$40,000. A summer intern position starts at \$17.00/hour. Pay scales with ability.

To apply please send a résumé to df@doughertybeef.com.
