AGRONOMY INTERN

POSITION SUMMARY
Lennard Ag Company has a great opportunity available for someone to join our progressive company at our Howe, IN farm as an Agronomy Intern. Our internship program has been designed to offer students a greater opportunity to practically apply the knowledge they have learned in the classroom to learning situations in the field. This internship is a full-time paid summer position with a tentative start date of May 1 and ending July 31.

ESSENTIAL JOB FUNCTIONS

- **Field Scouting**
  Check plants in the field for insect, disease, and weed pressure

- **Soil Moisture Monitoring**
  Check the soil moisture of the field at the different points and apply irrigation per the schedule

- **Sample Collection**
  Weekly collections of soil and petiole samples

- **Quality Control**
  Monitor crop yield through yield checks and estimation

- **Field History Recording and Monitoring**
  Will be required to monitor and keep weekly field history reports for fields assigned

- **Operations**
  Students will have the opportunity to work directly with our operations staff and assist them necessary tasks to maintain crops.

- **Other labor activities as needed**

POSITION QUALIFICATIONS

- Must be currently enrolled in college or university and working towards a degree in agriculture or engineering
- Must be an undergraduate student
- Must be eager to learn, be flexible with hours and hard working

DEADLINES

All students interested in the agronomy intern position must submit resumes no later than March 5th, 2018 to be considered.
