WHO IS MAINSCAPE
Mainscape Inc. is one of the largest privately held landscaping company in the United States. We are a relationship based company and held in the highest regard for partnership and transparency. While we are in the landscape business, we really believe that we are in the people/relationship business.

THE PURPOSE
The purpose of the Mainscape Inc. internship program is to provide a highly engaged group of students an opportunity to enhance their educational experience and improve their career preparation in the landscape industry.

KEY OBJECTIVE
A key objective of the intern experience is to help students and graduates understand and appreciate the importance of establishing, building, and maintaining strong work relationships in accomplishing results orientated goals.

DESIGN
The program is designed to involve students in real work projects, while also allowing them to experience the many aspects of the landscape industry and Mainscape Culture. The cultural experience includes significant executive exposure and numerous development opportunities. The internship is a 9-10 week program, 40 hours per week with varied hours based on department. The internship usually starts beginning of June and offers compensation of $15/hour.

EXPERIENCE
As a Mainscape Intern, you will experience firsthand the various divisions and career opportunities in the commercial landscaping industry. Interns will work with team members and managers of various departments, including delivery, sales, and the many divisions of corporate office (IT, Accounting, Human Resources, etc.). Interns will be asked to prepare a presentation on their internship experience to present to the Executive Team end of the internship.

WHO WE ARE LOOKING FOR
We are looking for students who are confident, responsible and self-motivated with the desire to be relationship specialists in business with us, while growing in their education. We take great pride in what we do, whom we serve, and all members of our team. Most importantly, we are bold in our beliefs and encourage everyone in the company to become the best versions of them self.

REQUIREMENTS
Previous landscape maintenance experience and course work in horticulture or agriculture are recommended. Junior and senior undergraduate students applying for college credit are preferred. Students must be capable of the labor intensive and strenuous nature of some job roles in the landscape industry. Please submit a cover letter and resume to the HR Department, contact information below:
