

# EROSION CONTROL INTERNSHIP JOB DESCRIPTION

**Job Title:** Erosion Control Intern  
**Reports to:** Owner

**Department:** Erosion Control Production  
**Effective Date:** 02 February 2021

**Company Overview:** Midwest Erosion Control, LLC is an owner-operated independent business providing a diverse portfolio of erosion control services to the Midwest and beyond. With roots in Indiana and over 39 years of industry experience, you will be part of a team where you can learn, advance and thrive with a company you trust, value and enjoy.

### Job Summary:

With our vast portfolio of work, you will get experience in aspects such as pre-bid assessment and design, project planning and management, and erosion control production. This position will provide mentoring and practical hands-on experience and assist the intern with achieving deliverables related to erosion control.

### What You'll Gain:

- Experience in multiple disciplines including mechanical, administrative, and project management
- Ability to work in a fast paced construction environment on a project
- Opportunity to travel to construction project sites
- Assigned a "mentor" to discuss your weekly experiences and associated internship requirements
- Develop professional skills that will enable future success in the erosion control industry

### Responsibilities:

- Our internship program provides a realistic view of what it's like to work in erosion control through meaningful, hands-on experiences. From coordinating subcontractors and suppliers to design and field work, our interns assume a wide variety of responsibilities.
- Interns will work in office, warehouse and job sites. You will learn and apply industry and company safety standards in the workplace (both field and office) and quality processes for design and erosion control. This experience will allow you to gain exposure to cost estimating, scheduling, forecasting, and contract management. Throughout the summer you will engage with project teams in the office and field to identify challenges and opportunities in the project execution cycle, perform as a team member to create solutions in a collaborative environment that results in better project outcomes and gain an understanding of the project lifecycle.
- Perform other related duties as assigned
- Ensure compliance to company and jobsite training, policies and procedures.

### Qualifications:

- Currently enrolled in an undergraduate Agronomy, Environmental Science, land reclamation or similar natural science program through an accredited university

JOB DESCRIPTION	CONSTRUCTION LABORER	JOB DESCRIPTION NO.: 12--001
Effective Date: 20 APR 2020	Approved by: Edward Mickel, MIDWEST EROSION CONTROL, LLC	

## EROSION CONTROL INTERNSHIP JOB DESCRIPTION

- Experience with cultivating, planting, field management, and/or weed management
- Strong math background
- Customer service oriented, good interpersonal and problem-solving skills.
- At least 18 years of age
- Farming experience running 500-250hp tractors a plus
- Knowledge in safety and OSHA requirements, construction materials and methods, Quality Assurance and Quality Control processes, reading construction prints and drawings, interpretation of scopes of work, interpersonal skills, and internal & external communications a plus

### Required Skills/Abilities:

- Ability to do physical labor and other physical tasks
- Ability to work as part of a team
- Ability to work with little or no supervision
- Ability to work in an industrial environment including temperature extremes of heat and cold, dust, noise, outdoor weather conditions, and wear all required personal protective equipment.
- Must be physically fit including lifting up to 75 lb., pulling, reaching, and climbing
- Ability to travel depending on project
- Punctual and reliable
- Compliance with company and jobsite training, policies and procedures
- Valid Driver's License

This job description is not designed to cover or contain a comprehensive listing of activities, duties or responsibilities that are required of the employee. Duties, responsibilities and activities may change or new ones may be assigned at any time with or without notice.

**EEO / Hiring Practices:** Midwest Erosion Control is an Equal Opportunity Employer. Individuals will be considered for positions for which they meet the minimum qualifications and are able to perform without regard to race, color, gender, age, religion, disability, national origin, veteran status, sexual orientation, gender identity, or any other basis protected by federal, state or local laws.

To apply, send resume and cover letter to Kathy Mickel at [Midwesterosioncontrol@gmail.com](mailto:Midwesterosioncontrol@gmail.com).
