

## Undergraduate research position

Around 20 hours a week or more if wanted.

Dr. Darrin Karcher's lab is currently looking to hire a few dedicated undergraduate students to assist in poultry research at the farm and in the lab this summer. This is a great opportunity for students to learn more about poultry research and handling. No experience with poultry is required. Interested students can email Hassna Khadour at [hkhadour@purdue.edu](mailto:hkhadour@purdue.edu).

Duties include:

- Collecting on farm data: egg collection, egg weights, hen weights, feed weigh back
- Bird handling, catching, and husbandry
- Assisting with necropsies, blood collection, bone, and organ measurements
- Measuring egg quality and components
- Assisting with lab analyses
