Undergraduate research assistant positions (30-40 hours/week with salary) are available in the Department of Horticulture and Landscape Architecture with the Langenhoven and Hoagland Labs. Students will gain experience with lab and field studies in a variety of vegetable crops. Activities will include: assisting with plant care in greenhouse experiments, soil nutrient and microbial enzyme assays, root mycorrhizal assessments, peppermint production and essential oil distillation, and field and high-tunnel vegetable production. Travel to Purdue research stations will be required. An academic background that includes coursework in horticulture preferred, but not required.

For more information or to apply, contact Petrus Langenhoven plangenh@purdue.edu 765-496-7955 or Lori Hoagland lhoaglan@purdue.edu 765-494-1426
