Purdue Entomology Dept – seeking Summer student employees

I’m looking for a couple of undergraduates to work in field plots this summer.

They would need to be local as most of the work would be done near campus.

If they have a farm background, that would be ideal but not a requirement.

Most of the work would be outdoors.

If you know of any students looking for summer employment, can you send them my way –

1) They can just come by to see me in Smith B1b.

And

2) email a resume to Dr Foster at fosterre@purdue.edu
