Riverview, LLP 2020 Summer Internships

Tuesday, May 26, 2020 - Friday, July 31, 2020

www.riverviewllp.com/internships

Applications due October 31, 2019

*If you are applying for multiple internships, only 1 application is needed

**We offer paid, hands-on internships in Arizona, Minnesota, Nebraska, New Mexico, and South Dakota. Interns on farm teams will rotate through different teams within their systems throughout the summer. Ability to learn farm-specific Spanish through an immersion experience (Dairy, Beef Feedlot, Calf Ranch, Crop Production Internships). Interns located at Morris office will work directly on teams in designated areas, for example, HR, Accounting, etc.

Interns pay for their own housing, but Riverview will help interns find places to live near their internship sites.

These 10-week paid internships are designed for students who want a front-row seat to work with a team and want to grow as an individual. Interns have opportunities to network with other interns during tours, local parades, open houses, company picnic, and mid-summer leadership academy.

Here are the Internship Opportunities:

**AGRICULTURAL ACCOUNTING**
Location: Morris, Minnesota

**COMPUTER SCIENCE**
Rotations: You will be given the opportunity to work as an individual contributor or on project teams using software engineering and analytical skills. Internship will be focused on applying and building engineering skills applied to cloud platform, big data platform, platform or application prototyping.
Location: Morris, Minnesota
AGRICULTURAL FINANCE
Rotations: Prepare statistical reporting, including financial performance, variance and cost analysis. This will allow you to develop an understanding of financial, accounting and treasury concepts. You will be a liaison for the non-financial leaders and will provide reporting and analysis support.
Location: Morris, Minnesota

AGRICULTURAL EDUCATION
Projects: Educational Experience Teaching/Development, Agricultural Messaging Development, Agricultural Infographic Development, Advocacy Training, Community Outreach, Design/Develop Website Content, Photography + Video, Stevens County 4-H Dairy Project Adventure
Location: Morris, Minnesota

AGRICULTURAL CONSTRUCTION

About Riverview, LLP
Providing a culture of opportunity for passionate people and innovative ideas.

Riverview, LLP is a diversified agribusiness with farms in five states: Arizona, Minnesota, Nebraska, New Mexico and South Dakota. What began as a family-owned crop and beef farm in 1939, has since grown into a multi-faceted, ever-changing partnership. In the mid-1970s, the family business was incorporated under the name of Riverview. This new company continued farming and raising beef cattle until 1995 when the company’s business structure changed to a partnership, which allowed several community members to invest in the new 800-head dairy, complete with a double-24 parallel parlor. Over the following years, the vision of an adaptable, integrated agricultural operation continued to grow as more dairy operations, beef feedlots, agronomy systems, and construction crews were added. Today, the company is predominately owned by Riverview employees who strive to provide a respectful, ethical work environment, ensure animal health and comfort, enhance the productivity of the land, and add value to the communities in which we live and work.
