Greetings NRCS State Foresters and Forestry POCs:
Please share the attached notice within your local networks for recent or soon to be college graduates. Please share within your NRCS and partner networks. This is a unique opportunity for the next generation of potential Conservation Foresters/Ecologists/Biologists.

For recent college graduates or soon-to-be graduates who may be interested in applying. Detailed position descriptions can be found on our [employment page](https://www.aldoleopold.org/post/2019-fellowships-announced/). Some key points are below:

- We are hiring a total of 4 Fellows: 2 land stewardship fellows and 2 education/communication fellows
- Fellowship term is June 2019 to May 2020, perfect for those graduating this spring
- Positions are paid and include housing
- 20% of formal fellowship hours are dedicated to a professional development curriculum
- **Applications are due March 10**
- Graduates will be part of a network of alumni advancing a Land Ethic all across the country

**Leopold Fellowships Available**

The Aldo Leopold Foundation is seeking recent college graduates (or soon to be graduates) for our [Future Leaders Program](https://www.aldoleopold.org/post/2019-fellowships-announced/), an innovative fellowship structure designed to build the skills and experiences needed to kick-start a career in conservation. The incoming cohort of fellows will have the opportunity to specialize within one of two program areas, Education and Communication or Land Stewardship, depending on their career aspirations.

**Applications Due: March 10**
**State Date: June 3**

*Education & Communication Fellows* will support a wide array of on-site programs, outreach initiatives, and communications efforts, creating opportunities for audiences to learn about Aldo Leopold, the foundation, and our work to advance a land ethic locally and globally.

*Land Stewardship Fellows* will assist with a wide variety of land management and monitoring techniques on Aldo Leopold Foundation lands and across the Leopold-Pine Island Important Bird Area. They will also participate in and contribute to an array of on-site programming.
