Hello from Walt Disney World in Orlando! The Agricultural Sciences team is looking for undergraduate college students and recent graduates who have received their Bachelors’ degree within 6 months of our internships’ start dates to participate in our fun and challenging six-month hands-on internship in several different agricultural and science education fields including Plant Science, Entomology, Biotechnology, and Aquaculture.

We are currently looking for students to fill internships for the Fall 2019 term (June 2019 – January 2020). Apply as soon as possible to get the process started.

Desired majors include but are not limited to: Ag. Communication, Ag. Education, Agribusiness, Agriculture, Agronomy, Aquaculture, Aquatic Biology, Biology, Biotechnology, Botany, Crop Science, Biological and Biosystems/Agricultural Engineering, Entomology, Environmental Horticulture, Fisheries, Food Science, Horticulture, Landscape Design, Marine Biology, Microbiology, Molecular Biology, Ornamental Horticulture, and Plant Science.

We would also like to share a video that the Walt Disney Company created to showcase one of our plant science interns, which features her love for agriculture and why she chose to do the internship. You can find the video at this link: https://www.facebook.com/DisneyWorldCommunity/videos/2336870386546562/?t=74

Interested students should apply online and should attach their cover letter, resume and school transcript to their application. Selected students will be interviewed via phone to further discuss the internship.

Students should go to http://www.disneyinterns.com/science. Click on “Enter Job Title or Keywords” then do a keyword search for “Agricultural Sciences” to view internship postings about the Plant Science, Entomology, Biotechnology, and Aquaculture internship positions along with many other science related internship openings. If having any questions with accessing the site, please email directly at WDW.EPCOT.Science.Internship@disney.com.
