

## Sustainable agriculture internships

Do you dream of owning a farm someday? Are you interested in hands-on environmental and sustainability work? Do you want to learn more about the local food system? As a White Violet Center intern, you'll work alongside our experienced staff who will teach you by doing. This is not a classroom study but actual farm labor that will educate you on what it takes to grow food and raise animals.

Internships are 3-12 months. Seasonal internships are also offered. You must be 18 years old at the start of your internship.

Other benefits include;

- Housing
- Monthly stipend
- Food Allowance
- Seasonal produce from the garden and eggs from our chickens
- Internships at White Violet Center may qualify for independent study
