

March 28th
2:30-3:30 PM

Virtual PK-12 Webinar

This webinar emphasizes opportunities for the Purdue Community to make their work accessible for lay persons and broader audiences. It will contribute to efforts related to PK-12 Strategic Initiative #4 — Discovery.

Translating New Knowledge for Broader PK-12 Impacts

A Discussion Led by Dr. Rod Williams

Dr. Rod Williams is Assistant Provost for Engagement and Professor of Wildlife Science. His current research investigates the life and habitats of Indiana's amphibians. His numerous awards and publications emphasize his growing reputation of successfully translating science findings for the public.
