

Bruce Erickson, Ph.D.

Education Distance & Outreach Director

Department of Agronomy

Purdue University

765-496-2926

berickso@purdue.edu

Bruce Erickson is the Agronomy Education Distance & Outreach Director at Purdue University, working to help deliver Purdue Agronomy's expertise to audiences in Indiana and around the world using a variety learning platforms. Erickson's areas of capability include corn and soybean production, precision farming, instructional design, and competency-based education and assessment.

Erickson is the lead instructor for Agronomy 105, Purdue's introductory undergraduate course in crop production, Agronomy Essentials and Precision Agriculture, both fully on-line non-credit courses designed for agribusiness professionals, and Fundamentals in Applied Agronomy, an online course offered by the American Society of Agronomy.
