AGRICULTURAL RESOUCE MANAGEMENT SURVEY - PHASE 2

NUTRIENT OR FERTILIZER APPLICATIONS SUPPLEMENT

INCLUDE						EXCLUDE						
Custom applied nutrients or fertilizers Micro					onutrients							
						ocessed manure						
						ents or fertilizers applied to previous s in the selected field						
Commercially prepared manure or Lime compost						and gypsum/landplaster			Office Use Lines in Table	Table 00_	0299	
	Nitrogen Codes for Column 2						Application Codes for Column 6					
	1.Anhydrous ammonia 6 Ammonia sulfate 2.Nitrogen solution (UAN) 7 Potassium nitrate, magnesi nitrate, and calcium nitrate 4.Ammonium nitrate 8 Other nitrogen fertilizer mat [specify:					te	3 Broadcast, by aircraft 7 Banded in or over ro					
L I N E	2					3		4	5	6	7	
	Materials Used [Enter percentage analysis or actual pounds of plant nutrients applied per acre.]					What quantity was applied per acre? [Leave this column blank if actual nutrients were reported]		[Enter material code]	When was this applied? 1 In the fall before seeding	How was this applied? [Refer to code list	the selected field were treated in this Refer to application?	
	[Show Common Nutrients or Fertilizers in Respondent Booklet] [Refer to nitrogen list above for type of nitrogen used.]							12 Gallons 13 Quarts 19 Pounds of actual nutrients	2 In the spring before seeding3 At seeding4 After seeding	above]
