

Introduction

United States Department of Agriculture
National Agricultural Statistics Service

What is ARMS?

- Agricultural Resource Management Survey
- Project conducted in cooperation with ERS
- Primary source of information for agricultural resource use, costs, and farm finance
- Supports key uses of enterprise, farm, and household data

ARMS: Data Collection Phases

- Phase I/ISS (May – July): Screens list frame operations for in-business status, operating arrangement, and presence of targeted commodities.
- Phase II: (Oct – Dec): Collects data on chemical use, production practices, and variable input costs for targeted commodities.
- Phase III: (January – April): Focuses on farm economics and risk management practices; typically includes the entire ARMS II sample and a general sample.

Expectations

- Read & review mailed packages from RFO
- Study manual
- Work with supervisors
- Participate in trainings
- Practice exercises
