Special Instructions:

The June Ag Yield Survey asks respondents to update their expected yields for winter wheat to be harvested in 2025. If a farmer no longer plans to harvest wheat for grain, please enter a detailed comment as to what happened with the wheat previously reported. Some of the questionnaires are matched with ongoing June surveys, including Crops/Stocks, and Hogs. Please try to coordinate data collection where possible and be mindful that Ag Yield has an earlier due date than most matched surveys.

Please enumerate the Ag Yield questionnaires only during the time specified and submit in CAPI by Friday, June 6 at 11:59 p.m. If you have any questions, please contact your supervisor or NASDA coordinator. Thank you for the great work you do with the surveys!

Notes:

- Submit all the records you were assigned. Contact your supervisor if you need assistance.
- Ask producers for their **expected** yields THIS year.
- Get the best data possible, try to minimize the number of UNKNOWN yields.
