EDR (respondent web reporting)	April 21 – May 6
Phone & Field Enumeration	April 29 – May 5 @ 11:59 p.m.
NOD Call-Outs	Probably none
Last Day to Submit in CAPI	May 5
Release Date	May 12, 2025

**Special Instructions:**

May Ag Yield is the first report of the 2025 Monthly Ag Yield program. It targets the expected yields for winter wheat and hay stocks for the Great Lakes Region. A small number of forms are matched with the Cash Rents, Labor, and Maple Syrup Surveys. Please try to coordinate data collection where possible.

Please enumerate the Ag Yield questionnaires only during the time period specified and submit in CAPI by Monday, May 5 at 11:59 p.m. If you have any questions, please contact your supervisor or NASDA coordinator. Thank you for the great work you do with the surveys!

**Notes:**

- Refer to Chapters 9 and 17 of the Ag Surveys Interviewer's Manual for information about the Ag Yield Survey.
- Submit all the records you were assigned. Contact your supervisor if you need assistance.
- Ask producers for their **expected** yields THIS year.
- Get the best data possible, try to minimize the number of UNKNOWN yields.
- Operators sampled for this survey indicated growing winter wheat on the March Crops APS Survey. If the operator says that they are not harvesting wheat for grain in 2025, please leave a comment in CAPI to explain the situation.
