Field Enumeration	Approx. 12
Available for Local Phone	Approx. 150
Last Date to enter into CAPI	Thursday, March 20 at 11:59 pm
Release Date	Friday, May 2

The Fruit Production and Disposition Inquiry and Berry Production and Disposition Inquiry is an integrated survey consisting of questions to growers about acreage, production, disposition and prices received for a variety of non-citrus fruits grown on the operation. This survey asks about the **2024** crop year. If a grower has not marketed all his or her 2024 fruit crop, please ask the grower to project the final price.

There are some anticipated matches with Fruit/Berry PDI, March Crop/Stocks, etc. Please coordinate data collection so that a minimum number of contacts are required.
