

United States Department of Agriculture
National Agricultural Statistics Service
Great Lakes Region

November 18, 2024

Dear Producer,

You have been selected for the 2024 Mint Grower Survey. All known spearmint producers in Indiana have been selected to participate in this survey. Producers are being asked to provide harvested acres, oil produced and sold, and dollars received. Your report is necessary to show the importance of mint to both Indiana and U.S. agriculture.

You have several options for submitting your survey responses:

- Online at <https://www.agcounts.usda.gov>
- By Mail in the enclosed postage paid envelope, or
- By Fax at our toll-free Fax line 855-270-2709.

If we do not receive your report before November 29, we will follow up with a phone call. Your cooperation is very important to accurately estimate production and prices of mint.

Confidential reporting: U.S. code, Title 7 ensures that your information and responses are kept strictly confidential, and will only be used in combination with other reports to produce State and National statistics.

For additional information about this project, please contact the USDA, NASS, Great Lakes Regional Field Office at 1-800-453-7501. Thank you for participating in the survey and for your support of our programs and Great Lakes agriculture.

Every report counts – even reports without crop production. Please respond!

Sincerely,

A handwritten signature in black ink that reads "Marlo D. Johnson". The signature is written in a cursive, flowing style.

Marlo D. Johnson, Director
Great Lakes Regional Field Office
