Special Instructions:

Enclosed is the Potato Acreage and Disposition questionnaire. Please complete questionnaires via CAPI by August 30.

The Potato Acreage and Disposition survey is used to determine how the 2023 potato crop was utilized. USDA waits until all the 2023 crop has been marketed to ask these questions. This survey also helps us to determine 2024 potato acreage, how much seed was used to plant the 2024 crop, and how much storage capacity growers have.

If you have any questions, call the toll-free number 800-453-7501 or contact me directly at 517-324-5327.
