

Talking about NASS just got easier!

This week, we [introduced](#) the new [Talking About NASS guide](#)—a comprehensive and convenient [quick reference guide](#) with clear, consistent answers to common questions about NASS.

Today, we introduce another powerful tool—the [Talking About NASS PowerPoint](#) presentation!

Together, these tools are designed to help you answer some hard questions...

- Why should I complete this survey?
- Who uses NASS data and how?
- How can I as a farmer use the data and why does it matter?

And the PowerPoint will support you in a variety of settings. So, whether you're talking about NASS to local producers, a group of local lawmakers, or a room of community leaders, you'll be able to explain how they can use NASS data to work smarter.

Now [Talking About NASS](#)— **just got easier!**
