

## SECTION D - CROPS AND LAND USE ON TRACT

1. The map and photo has a red boundary drawn on it. How many acres did you operate inside that red boundary on June 1?

Acres	
840	<input style="border: 2px solid red; border-radius: 10px; padding: 5px; font-size: 1.2em; color: red; text-align: center; width: 40px; height: 20px;" type="text" value="="/>

The next questions will ask about the land use for the acres that you operate inside the red boundary on June 1. Do not include land you operate that is OUTSIDE the red boundary.

**\*\* How to Read this Chart \*\***

This document can be used as a "cheat sheet" that enumerators and editors can use to determine if tract acres have been properly accounted for in section D of the tract questionnaire. Certain lines have circled plus **+** signs and certain lines have circled minus **-** signs. The plusses and minuses must add and subtract to add up to equal **=** the acreage in the total tract in box 840. Any acres recorded on the lines marked **NA** are not added or subtracted, but are important to record to document appropriate land use.
