Minimum Data Requirements

- All land must be accounted for in the segment, both agricultural and non-agricultural.

- All tract-level and segment level records must be submitted in CAPI

- Don't leave anything not submitted

- Provide minimum amount of data, even if refused or inaccessible

Minimum Data Requirements

- For Ag Tracts:
  - Name and Address of Tract Operator
  - Segment, Tract Letter, County (if not preprinted)
  - Type of Operation (Box 9921)
  - Partner Name and Addresses (if available)
  - Completed Section D with Total Tract Acres and how acres were utilized
  - Observations to help complete Sections E and F
  - Observations of livestock present in tract
  - Office use boxes on back page (response code, respondent code, mode code, enumerator id, date).

Minimum Data Requirements

- For Non Ag Tracts:
  - Name and Address of Tract Operator
  - Acres in the tract (Column 18)
  - Land Use
  - Potential for Agriculture (Column 20)
  - Type of non-ag tract (Column 20a; refer to options on back of screener form)

Minimum Data Requirements

- For Segment-Level Records:
  - All tracts need to be accounted for
  - Total Reported Acres between 90 and 110 percent of Digitized Acres, if not closer.

- In Summary:
  - Submit every tract-level and segment-level record assigned, even if refused or inaccessible, with the minimum data requirements.
