March 13, 2023

[Farm Operation]
[Farmer Name]
[123 Example St]
[Example, MO 63132]

You have been selected to participate in a telephone interview for the June Area survey. Results from this survey are used to develop comprehensive estimates of land uses and agricultural activities across the United States. Data from this survey are a critical foundation for many USDA reports, including the 2022 Census of Agriculture.

Please retain the enclosed aerial photo and county map for your upcoming interview. A NASS representative will call you to confirm whether the land where you live or operate lies within the red segment boundaries on the map. They will also ask questions about agricultural land use on your operation such as total acres operated, grain storage, and livestock inventory. The interview is estimated to take 20 minutes.

The information you provide will be used for statistical purposes only. In accordance with federal law, your responses will be kept confidential, and the survey results will be available in aggregate form only to ensure that no individual producer or operation can be identified.

Thank you for your participation and support of U.S. agriculture. For more information about NASS surveys, please visit nass.usda.gov/Surveys. If you have any questions, please call us at 888-424-7828.

Sincerely,

Joseph L. Parsons
Chair, Agricultural Statistics Board
