

FORM Q-6 FIELD SCALE CHECK 2023

**NATIONAL
AGRICULTURAL
STATISTICS
SERVICE**

Year, Form, Month.	1 - 5 _ 0 6 _ _
Region, State, District.	6 - 9 1 _ _ 1
Scale ID.	10 - 18 3 _ _ _
Date: _____	19 - 22 0 _ _ _
Scale Assigned to Enumerator: _____	671
Scale checked by Supervisor _____	672
OFFICE USE	673

INSTRUCTIONS

The enumerator will weigh the test weights supplied by the supervisor. The supervisor will record the scale readings and the true weights for each test and compute the difference between them. The supervisor will not disclose the true weights until after the tests are completed and should not help or interfere with the weightings by the enumerator in any manner except to verify that the weights are identified correctly.

	SCALE READING	TRUE WEIGHT	DIFFERENCE	TOLERANCE	
				CORN	COTTON
Test weight # 1.	601 • _	605 • _	609 • _	.25 lb	2 g
Test weight # 1 and 2.	602 • _	606 • _	610 • _	.50 lb	3 g
Test weight #1,2 and 3.	603 • _	607 • _	611 • _	.75 lb	4 g

Supervisor will remove from service any scale that does not meet tolerances on all tests.

Was scale removed from service? Yes No

Enter code(s) for all crops for which this scale is used.
 Corn = 2
 Cotton = 3
