

Technology Venture Fellowship (Remote)

<https://engine.xyz/ventures>

Established in 2020, The Tech Venture Fellowship is a paid, part-time program for current graduate students and postdocs to support shaping the next generation of Tough Tech companies and investments.

Engine Ventures invests in the next generation of Tough Tech founders to solve the world's biggest problems. We provide capital, operational expertise, and a powerful academic, commercial, and governmental network to build and scale companies unlocking massive opportunities in climate change, human health, and advanced systems.

The Technology Venture Fellowship program is rooted deeply in exploring breakthrough science and engineering and its applications, while exposing Fellows to early-stage company formation and venture investments in Tough Tech. Over the course of five months, the Fellows will work with our investment team on opportunities ranging across the venture capital process.
