

International Programs in Agriculture

How can IPIA help?

- Assistance with grant proposals
- Assistance in hosting short- and long-term international visitors
- Help facilitating international faculty and student exchanges
- Assistance in identifying research collaborators for international projects
- Support for international students within the College of Agriculture
- Project management for externally-funded international projects
- Coordination with the Office of Global Partnerships and other campus units
- Assistance and financial support for international travel
- Assistance with study abroad planning and implementation

Partnering globally to *improve* **agriculture**,
protect **natural resources**, *enhance* **food**
systems and *build* **cultural awareness**.
